It has been our experience that every transfer/non-traditional student has a story to tell about their background and the road they have taken to get to this point. Some did not complete high school, but received their GED. Some went directly from high school to community colleges. Others went from high school to military or work force. Still others describe a particular event or moment when they discovered what they wanted to achieve and what was needed to accomplish their goals. Please tell us the story of your journey to arrive at the decision to study at your chosen university.

~750 word limit

If there has been a particularly influential faculty member or personal contact who has been instrumental in your decision to attend at your chosen university, please describe that experience:
