How to Set Up My VPN: Chrome OS

1. Go to the Google Play store on your device and search for GlobalProtect.
   - [Google Play link](#)

2. Click on the add to Chrome button.

3. In the next window click on “Add app” button.

4. Open the GlobalProtect application in your application menu.
Enter myvpn.utep.edu for the portal address and select Add Connection.

Verify your configuration is correct then close the application.

Go to the bottom right-hand corner, click on the clock, and then select the VPN button.
8. Click on the myvpn.utep.edu option under GlobalProtect

9. Enter your UTEP username and password and select Connect

10. Approve the DUO alert.

You are connected.
