MacOS- Mobility Print Instructions

Requirements: Must use UTEPSecure Wi-fi.

Open “System Settings” or “System Preferences” on versions prior to macOS Ventura.

Find “Printers & Scanners” and click on “Add Printer, Scanner, or Fax…”

Use the Search option and type in “UTEP”.

- Select “UTEPBW” for Black & White printing, or “UTEPColor” for Color Printing
- Once you have made your selection, click “Add”.
• NOTE: To add the other printer option, just follow the steps above.

You will be able to use the “Print” option on any of your applications. Once you are ready to print, you will be prompted to enter your UTEP Username and Password. Also, you may select “Remember this password in my keychain” to avoid getting the prompt any time you want to print.
