Why We're Moving to Concur

Before configuring Concur, we asked campus users for feedback

What campus told us

- Returned reports were the number one complaint
- Receipt challenges — missing or hard-to-attach documentation
- Too many separate forms and manual processes
- Status tracking — "where is my document?"
- Mileage complexity and travel card delays
- Expense coding confusion and international travel challenges

How Concur answers it

Easier submissions

Alerts catch missing items before you submit, not after

Fewer separate forms

Entertainment details, mileage, and currency move into Concur

Streamlined approvals

Less redundant approval and faster travel reimbursement visibility

Connected travel tools

Booking, e-receipts, mobile, and delegate support in one place

What is not changing: UTEP travel policies, approval workflows, documentation requirements, and PeopleSoft payment processing.

Concur 101: Which Form Do I Need?

The answer depends on whether you are traveling

Travel Request

- Replaces the PeopleSoft Travel Authorization.
- Used to obtain approvals and provide estimated travel expenses.

Expense Report (Travel & Non-Travel)

- Replaces the PeopleSoft Expense Report. Used to submit actual expenses, attach receipts, and request reimbursement.
- Travel expenses require a fully approved Travel Request first; non-travel expenses are created directly, with no request needed.
- Travel and non-travel expenses may be submitted together when applicable.

Use this form when you need to...

If you need to...	Use this form
Request approval for upcoming travel or estimate travel expenses	Travel Request
Submit expenses after a trip, or submit a non-travel business expense	Expense Report

Remember: Travel Request = before travel. Expense Report = after travel. Travel expense reports require a fully approved Travel Request.

End-to-End Travel Process Overview

From request through reimbursement, in one system

1

Create Travel Request

Trip details, funding, estimated costs

2

Approvals

Supervisor, then funding source approver

3*

Book Travel

Air, hotel, and car booked in Concur

4

Travel Occurs

Capture receipts as you go

5

Expense Report

Actual costs, receipts, allocations

6

Reimbursement

Approved report flows to PeopleSoft

Estimates versus actuals

The Travel Request captures estimated costs so the trip can be approved in advance. The Expense Report captures the actual costs and the receipts that support them.

Approved does not mean paid

Approved reports flow to PeopleSoft automatically and then wait for the pay cycle, which still runs Monday, Wednesday, and Friday mornings. Ask for approval by close of business the day before a pay cycle day.

During the Transition Period

Which system should you use?

Use PeopleSoft

Expense Reports tied to:

PeopleSoft Travel Authorizations approved or routing for approval

Cash Advances created and paid through PeopleSoft

Use Concur

All new:

Delegates

Delegates

Department support for travelers

Delegate role

Authorized to prepare requests and reports, import expenses, and attach receipts in a traveler's Concur profile.

Who can use a delegate

Any employee can serve as or use a delegate. Frequent travelers and those using department support benefit most. Travelers can assign multiple delegates.

Travelers must submit

Delegates prepare documents and select Notify. The traveler logs in and submits.

Common use cases

Early preparation
Start reports with e-receipts before travelers return.

Staff & faculty support
Department staff manage travel paperwork.

Coverage
A backup delegate covers absences.

Student travel
Delegates process reimbursements through temporary profiles.

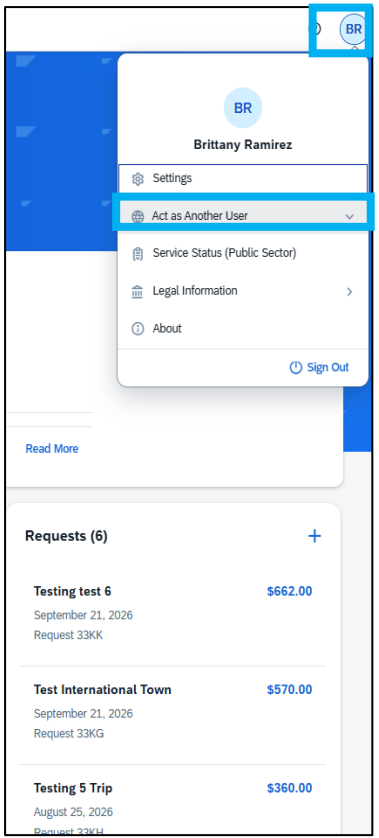

Initial delegate access matches your current PeopleSoft access.

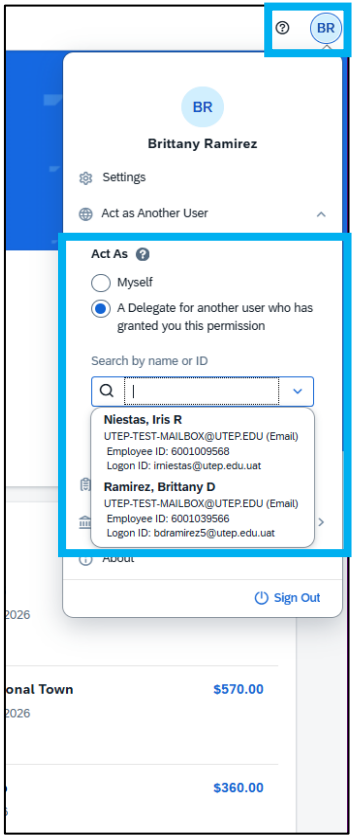

Delegates

How departments can support their travelers

How to access your travelers:

- Click on your **profile icon**
- Select **Act as Another User**
- Under **Act As** Select **A delegate for another user who has granted you this permission**
- Select your Traveler
- Click **Switch**

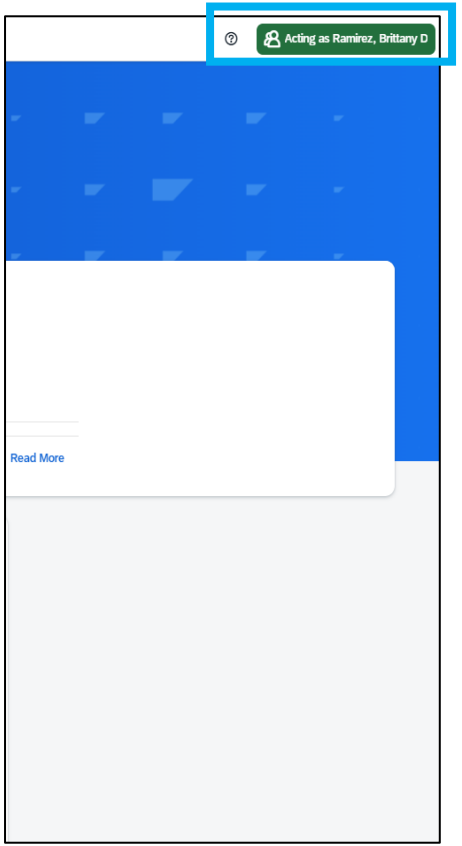

Delegates

How departments can support their travelers

Now you are acting as your Traveler!

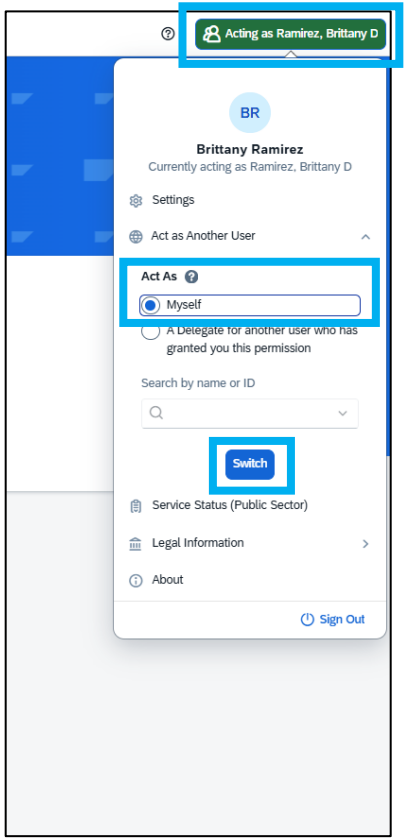

You can now create Travel Requests and Expense Reports.

Reminder: A delegate can do everything **except submit.** They prepare the document, then use Notify to email the traveler, who logs in and submits.

To return to your own profile

- Click **Acting as [Traveler Name]**
- Choose **Myself** under Act As
- Click **Switch**

Travel Requests

STEP ONE

Creating a Travel Request

The first step in the travel process — submitted before you travel

STEP 1

Start the Request

Concur Home → Create Request, or Requests → Manage Requests → Create New Request.

STEP 2

Complete the Header

Request policy, trip start and end dates, trip purpose, departure and destination city, traveler type, and trip type.

STEP 3

Select the Policy

UTEP Athletics Request Policy (NIT) for most travel. UTEP Juarez Request Policy for eligible day trips with no overnight stay.

STEP 4

Enter Funding

Select your department, then the SpeedType, and verify the Fund Code that auto-populates.

STEP 5

Add Estimates

Add estimated airfare, lodging, rental car, and meal per diem through Travel Allowance.

STEP 6

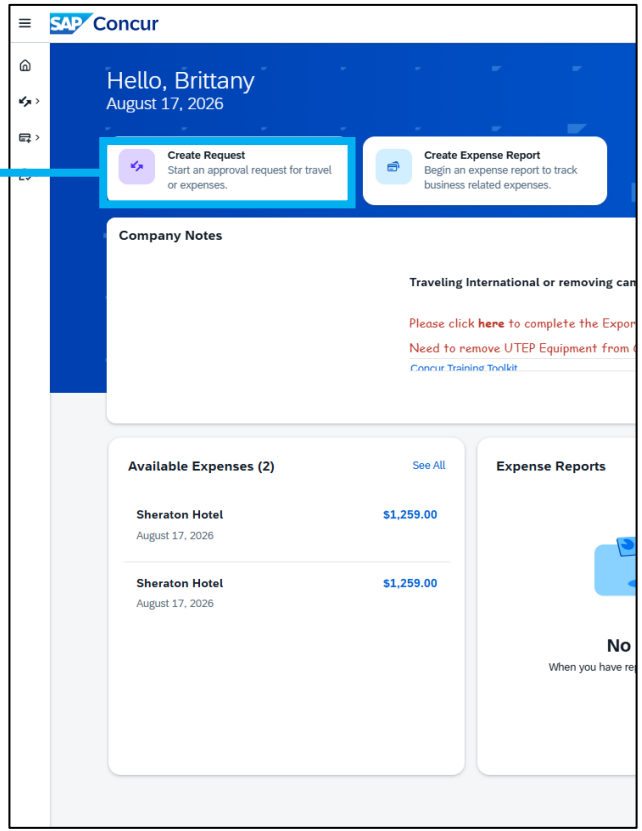

Review and Submit

Review alerts, confirm required fields, and select Create Request, then submit.

Creating a Travel Request

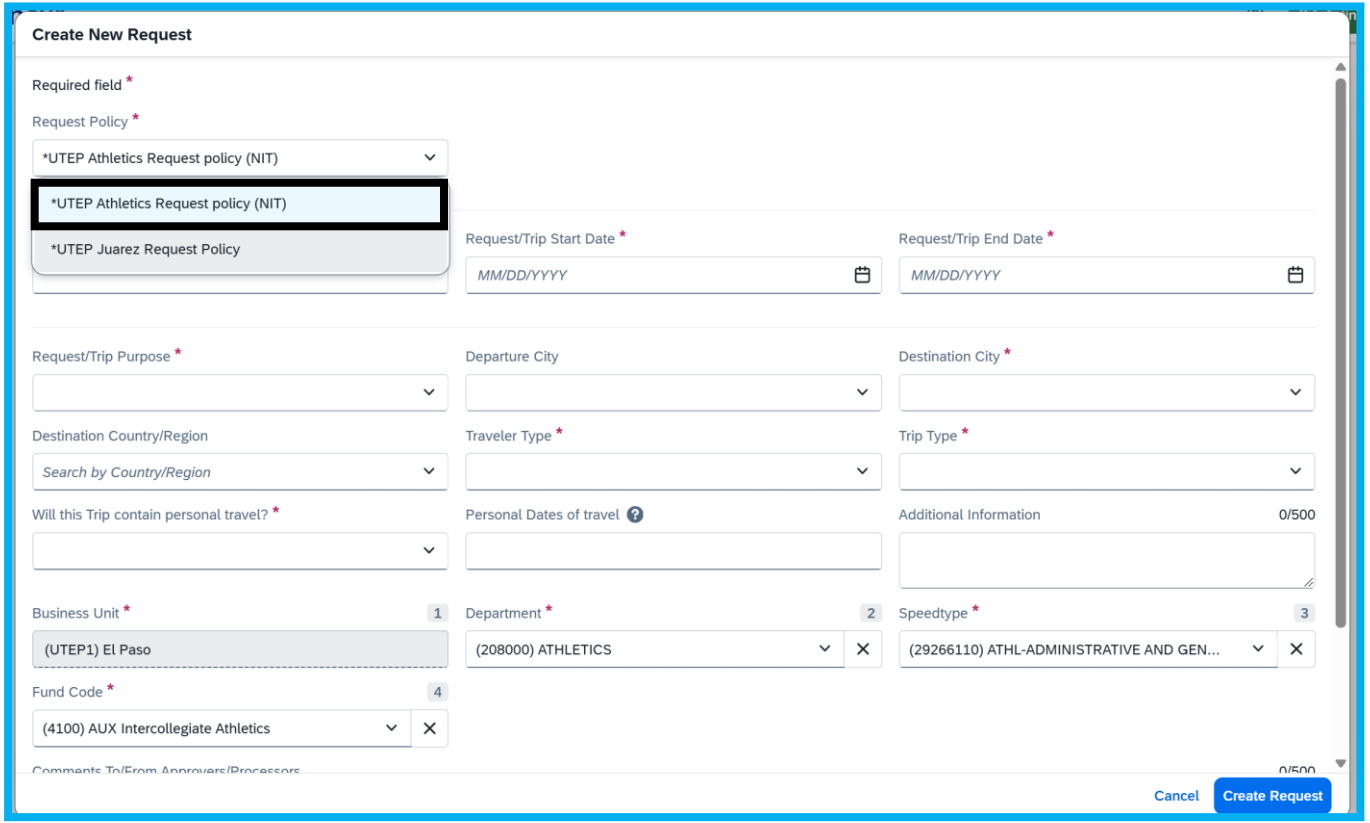

The first step in the travel process — create a request

Click **Create Request** to start a Travel Request.

Creating a Travel Request

The first step in the travel process — submit before you travel

Creating a Travel Request

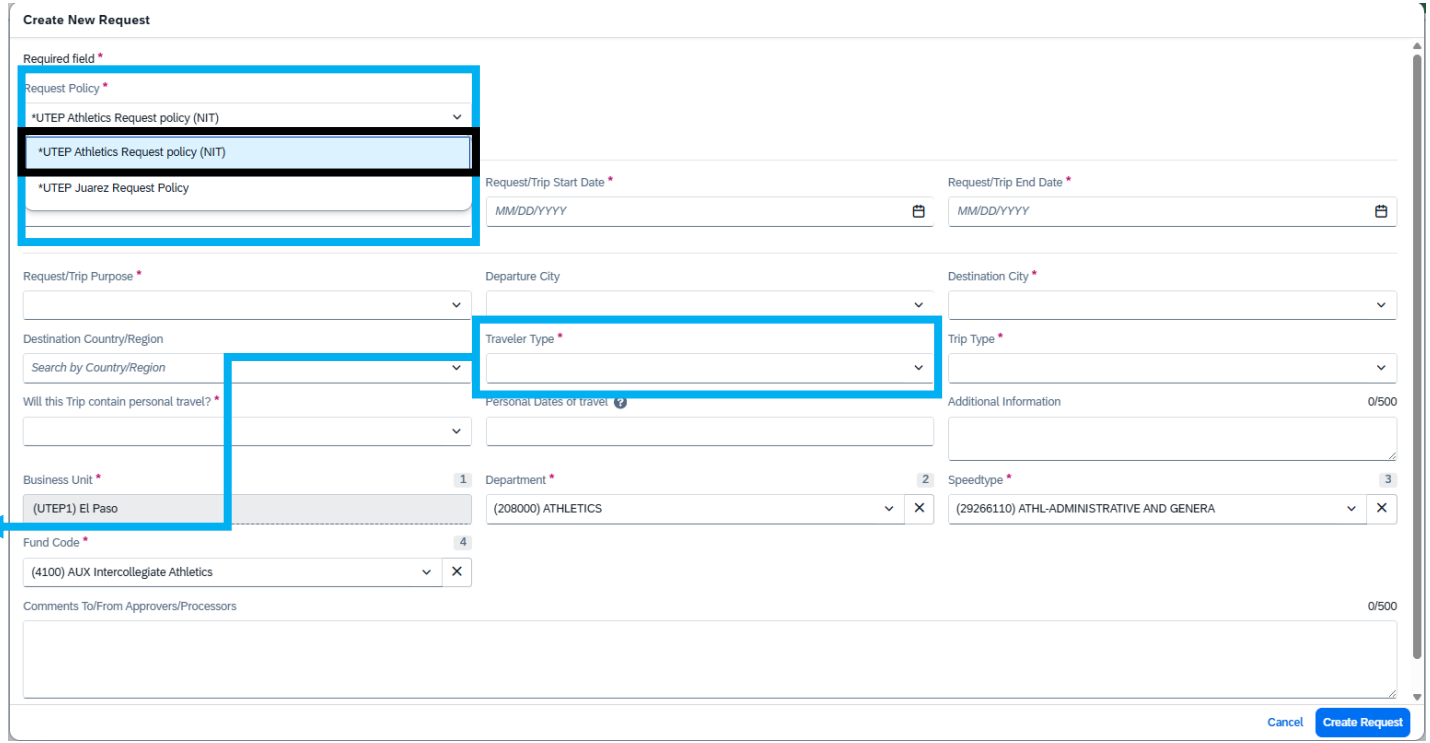

Complete the Header

Multiple Request Policy options are available BUT:

Athletics travelers should stay with the **Athletics policy** unless specifically instructed otherwise.

Traveler Type:

1. **Employee** – select this option if an employee is traveling without students.
2. **Group** – select this option if an employee is traveling with students.

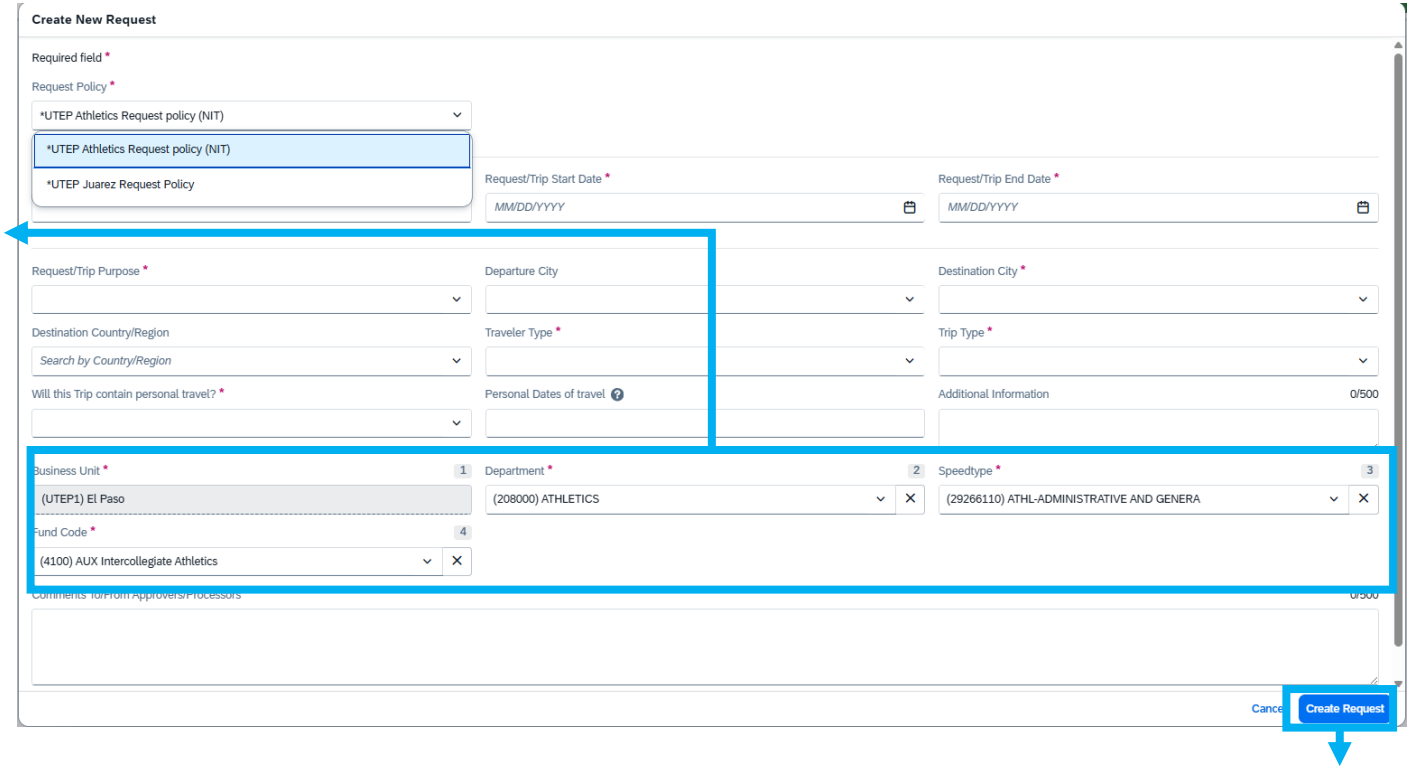

Creating a Travel Request

Funding source fields:

1. Business Unit UTEP1 is viewed only, not modified.

2. Must select **Department** before **Speedtype** (cost center or project ID).

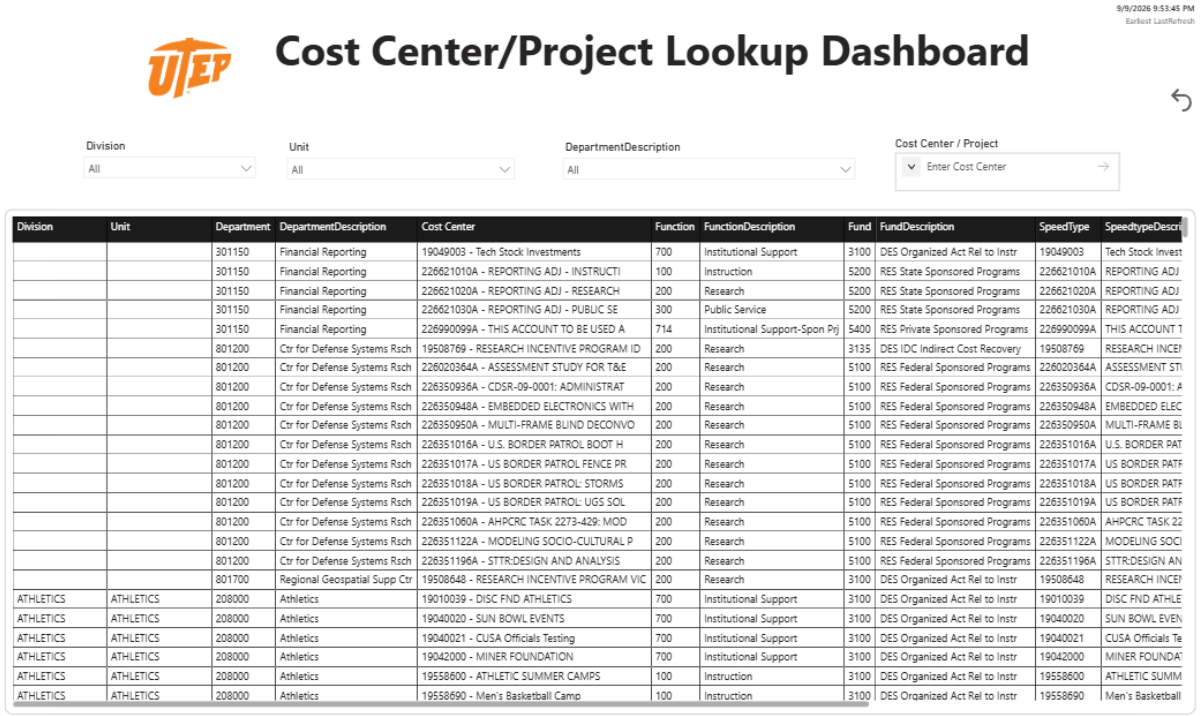

3. **Fund Code** is auto populated based on the **Speedtype** selected.

Click **Create Request** when all fields are completed and ready to proceed with adding estimated expenses.

Need help finding your speed type?

- Use the Cost Center Project Lookup Dashboard to find your SpeedChart, Cost Center, or project information.
- Available on the [UTEP Concur Resources Page](#).

Adding in Expenses to a Travel Request

Once your Travel Request is created, the user should add all the estimated expenses related to the trip.

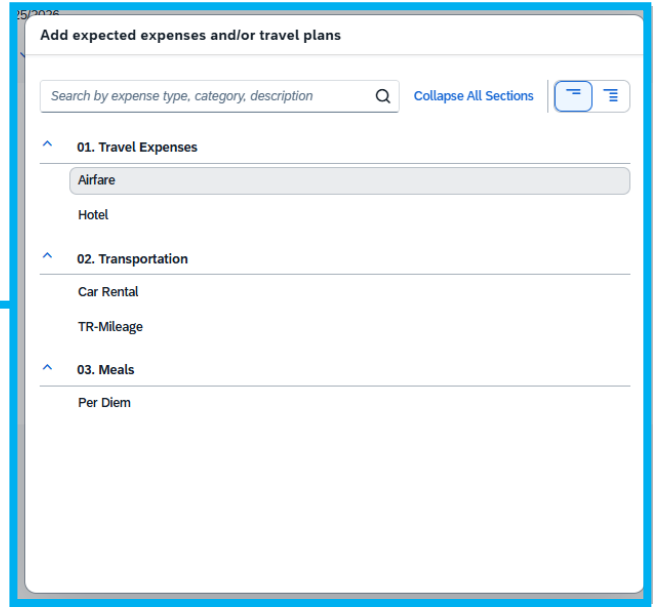

- Click the **Add** button to add expense types for other travel expenses expected for this trip.
- Review alerts to ensure that all required information and attachments have been provided. Missing information and attachments may result in workflow delays.

Adding in Expenses to a Travel Request

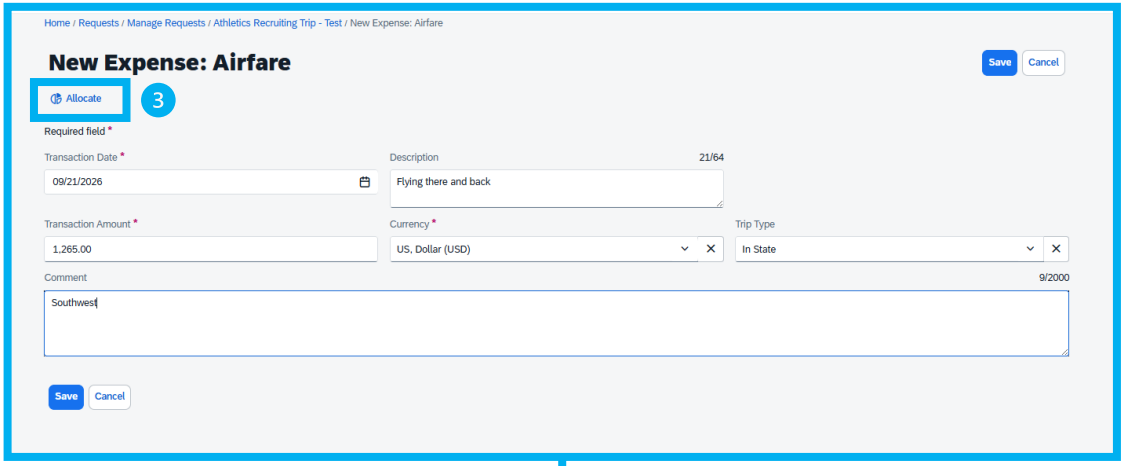

Once your Travel Request is created, the user should add all the estimated expenses related to the trip.

1

1. Pick and Expense you would like to add to your Travel Request.

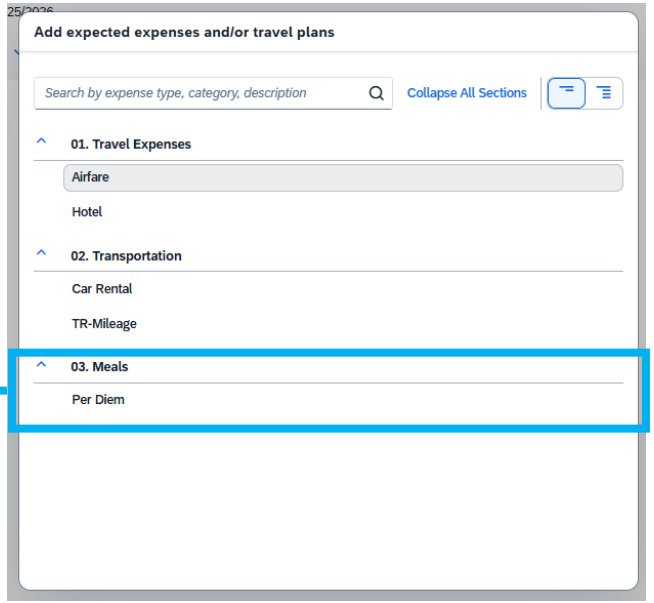

2

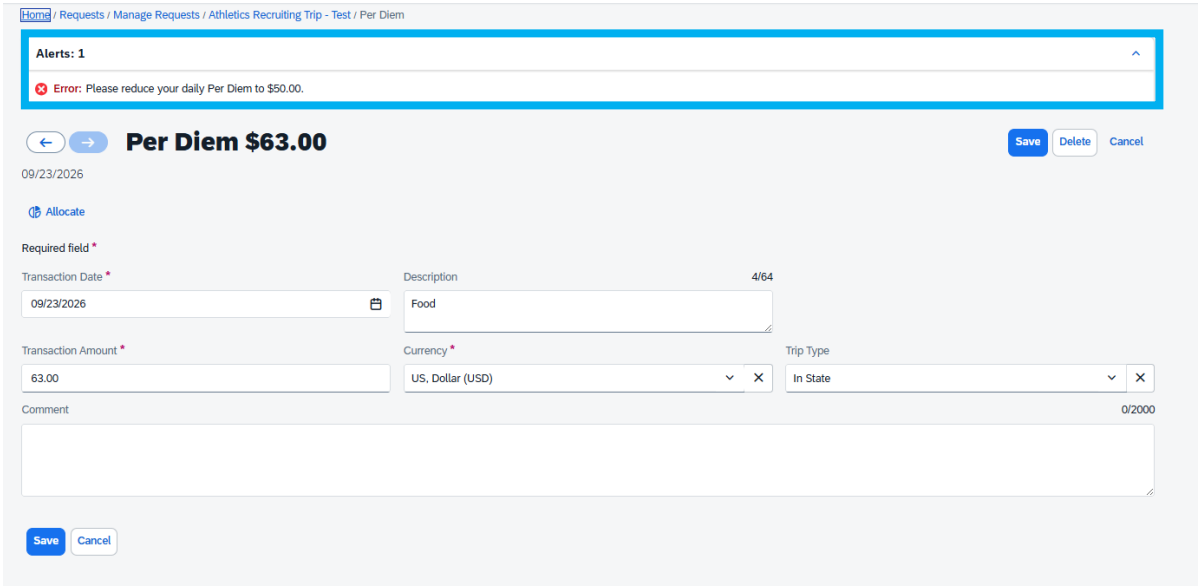

2. Complete the required expense details and click **Save**.
3. You can also select **Allocate** to split the expense between accounts or funding sources. We'll discuss allocations in more detail later, so just keep this option in mind for now.

Adding in Expenses to a Travel Request

Meals Per Diem

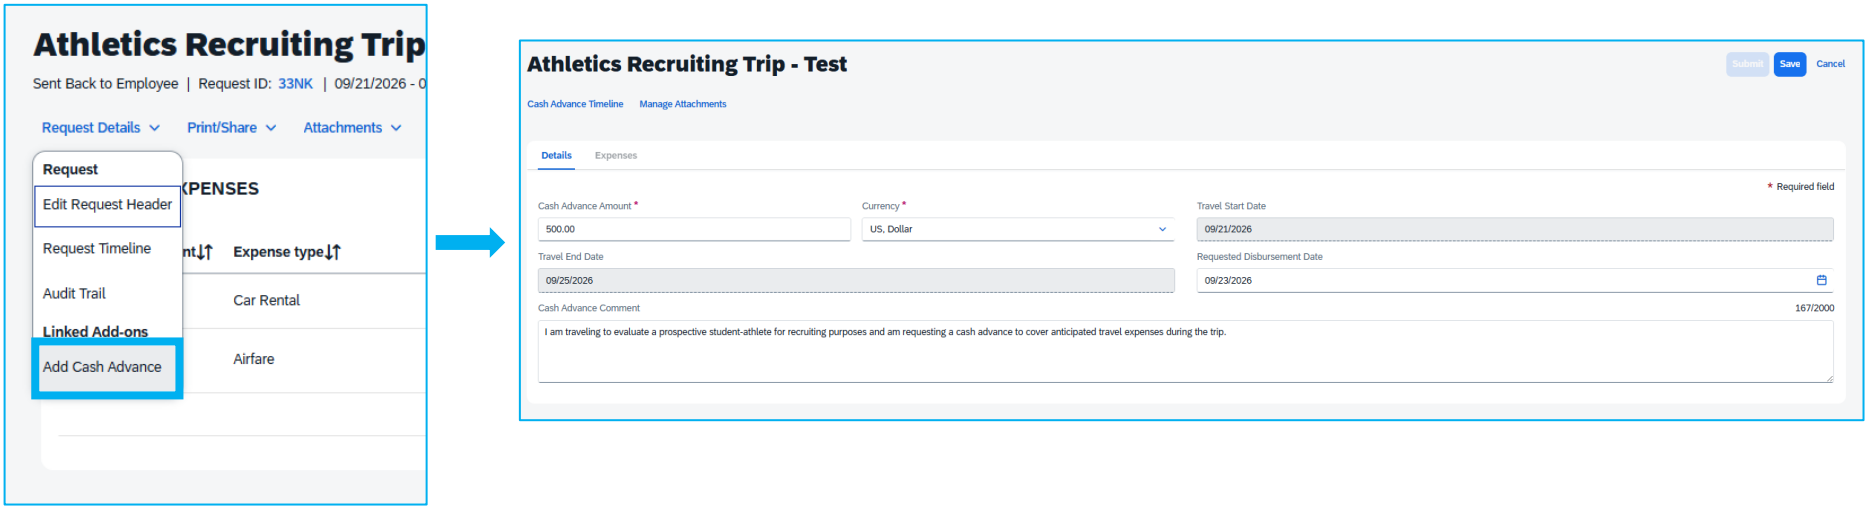

Reminder: Meals Per Diem is $50.00 Daily!

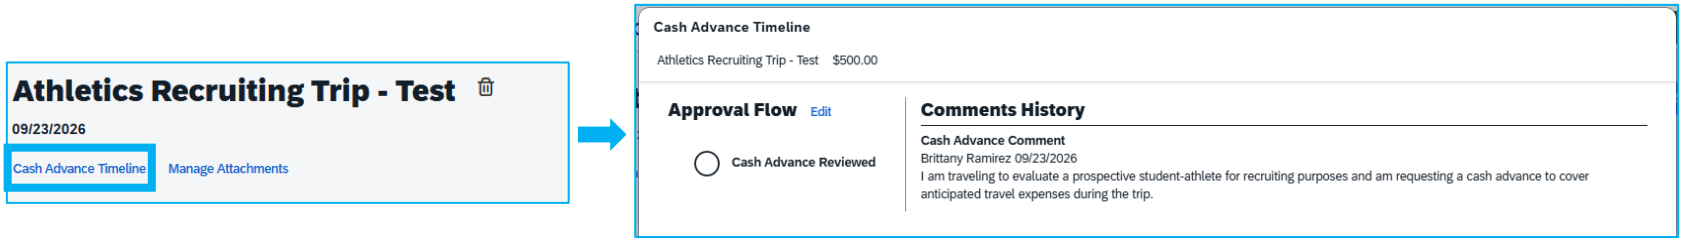

When using the Meals Per Diem expense type, entering more than the $50 daily allowance will trigger an alert. Concur will identify the issue and provide the necessary steps to correct it.

Adding Cash Advances

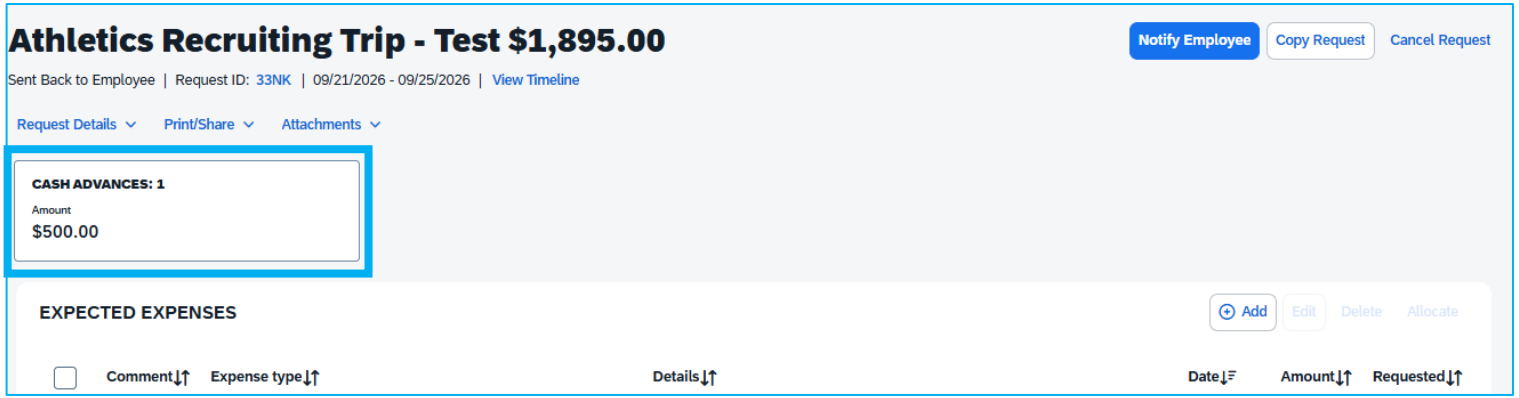

- To add a cash advance, select **Request Details** and click **Add Cash Advance**.
- Complete the required fields, then select **Save**. The cash advance will be added to your travel request.

Adding Cash Advances

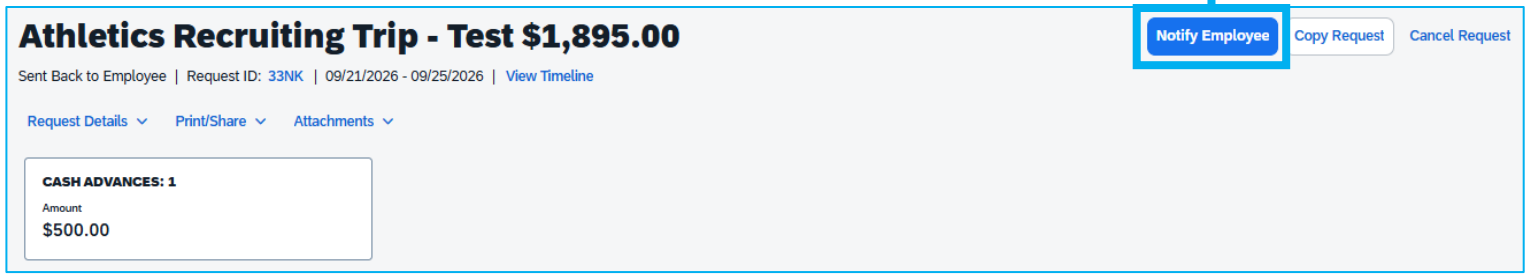

- Once a cash advance is created, you can use the **Cash Advance Timeline** to track its progress through the approval workflow.
- Any associated cash advances will also appear at the top of the request for easy reference.

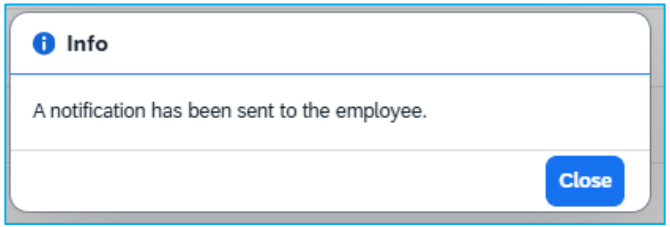

Notifying Traveler to Submit Travel Request

Once your Travel Request has all the expenses, let's notify the employee to submit.

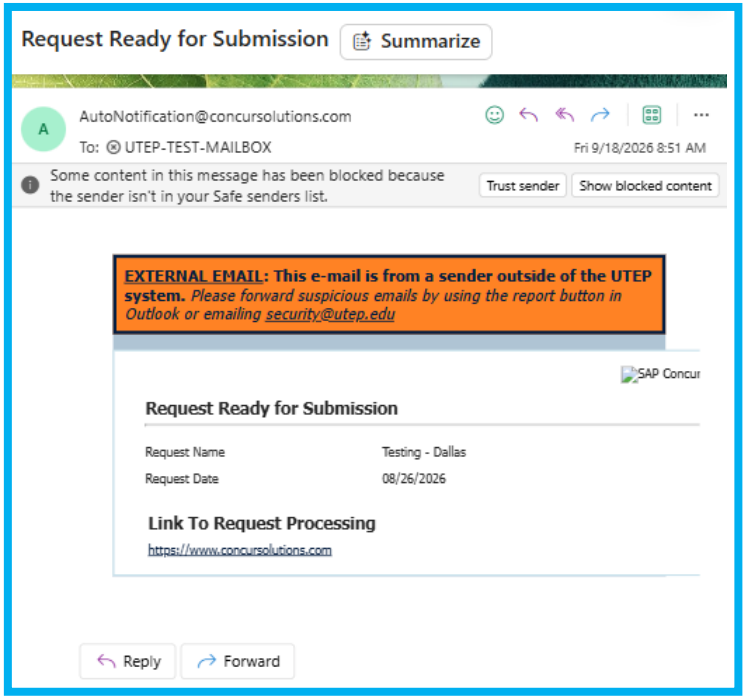

- Once all expected expenses have been added click the **Notify Employee button**.
- This will let them know that they need to go into concur and click **submit**.
- You will receive the notification below confirming a notification has been sent to the employee.

Traveler's Email to Submit Travel Request

Traveler receives this notification via email

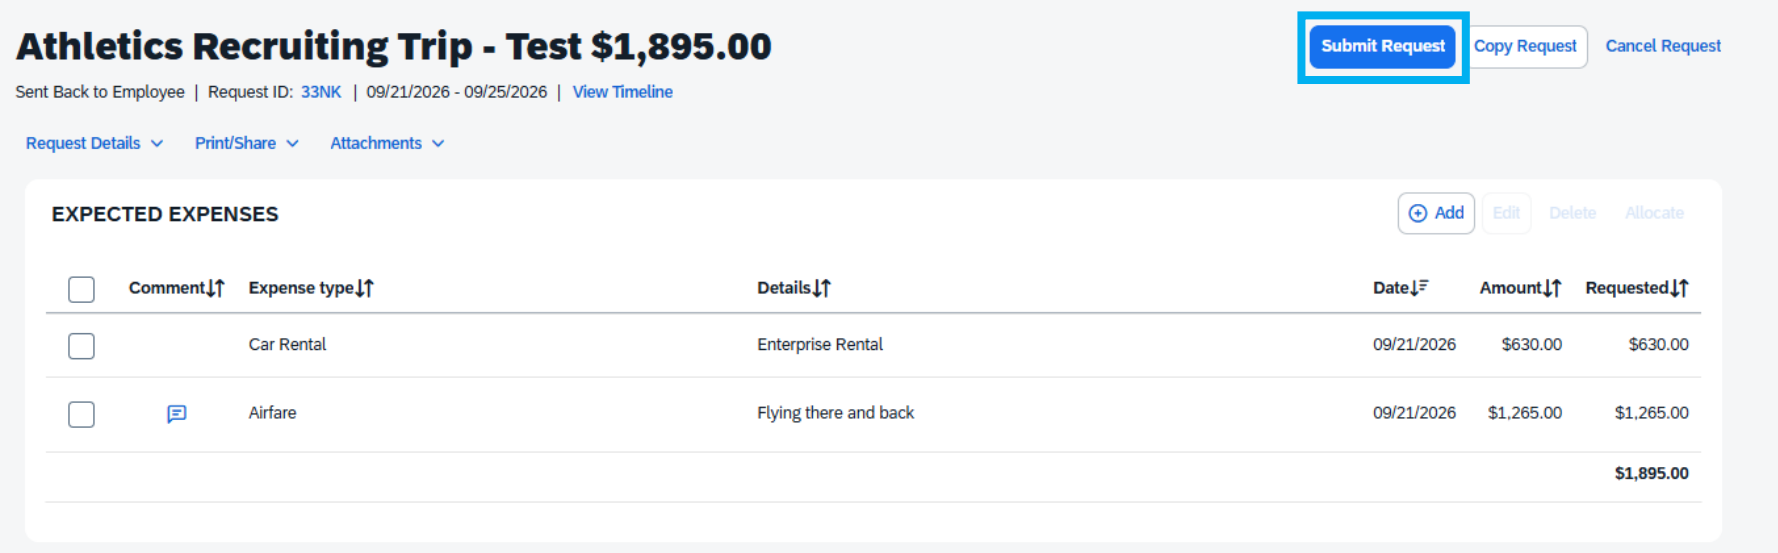

Traveler's POV to Submit Travel Request

Traveler click link on email and it takes them to the expense report, the can review and submit report.

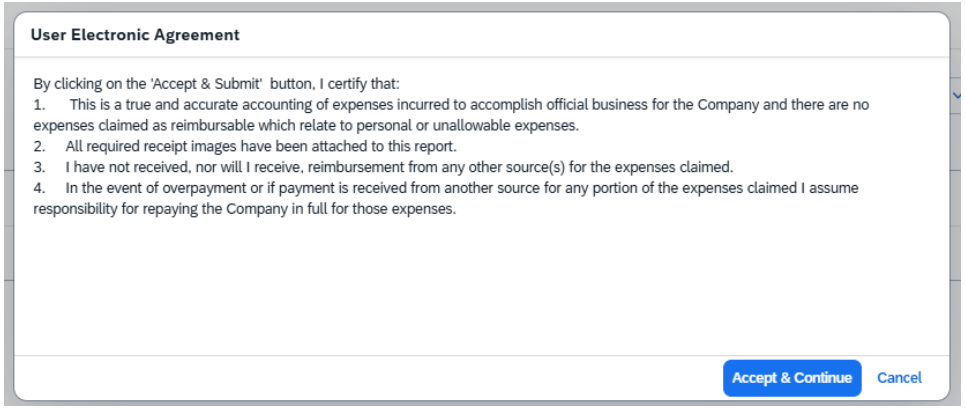

Traveler's POV

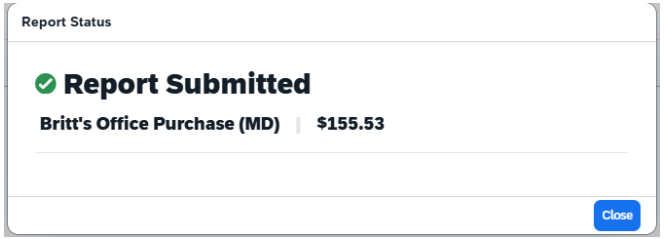

- When they receive the email and go to the expense report and click **Submit Report** the **Report Totals** window will appear. They will review the summary and select **Submit Report** again to continue.

Traveler's POV to Submit Travel Request

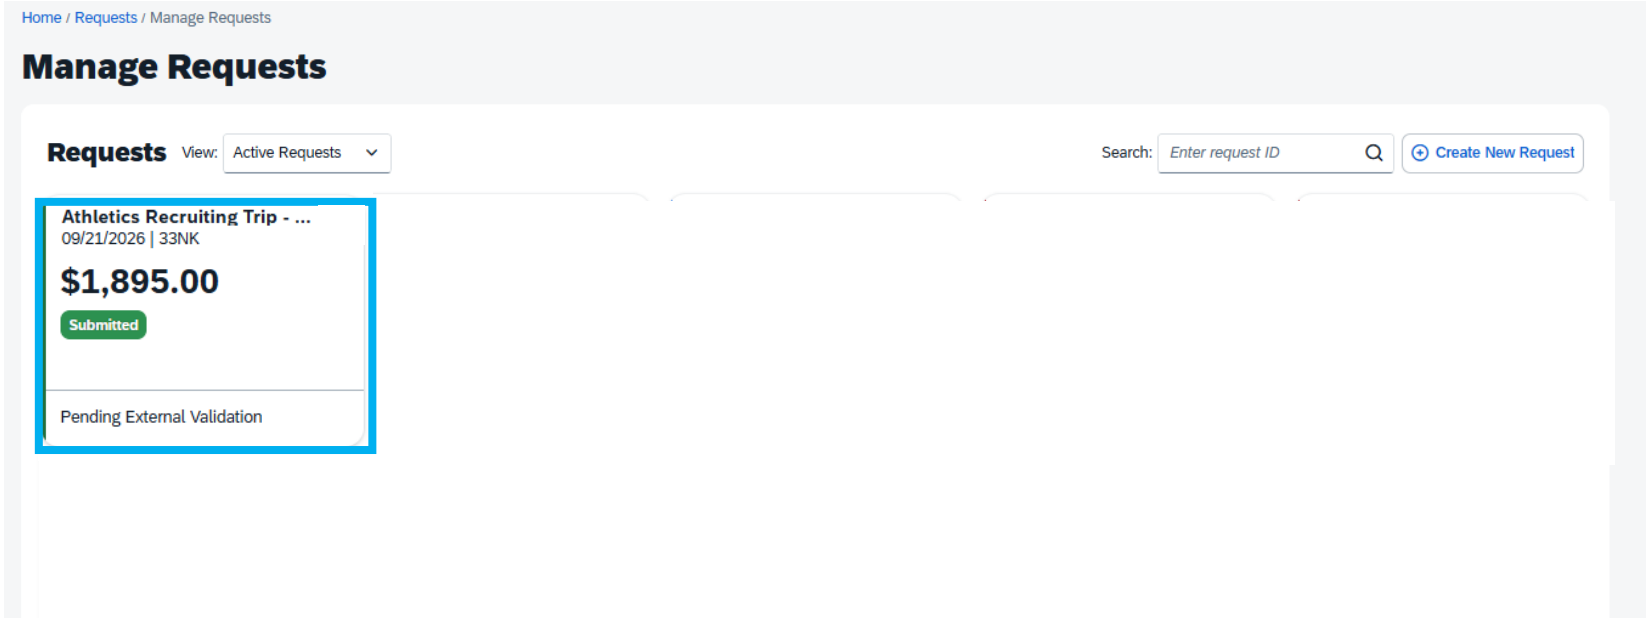

- The User **Electronic Agreement** will appear after they submit the report.
- They will review the agreement and select **Accept & Continue**.
- The report will then be successfully submitted and routed through the approval process.

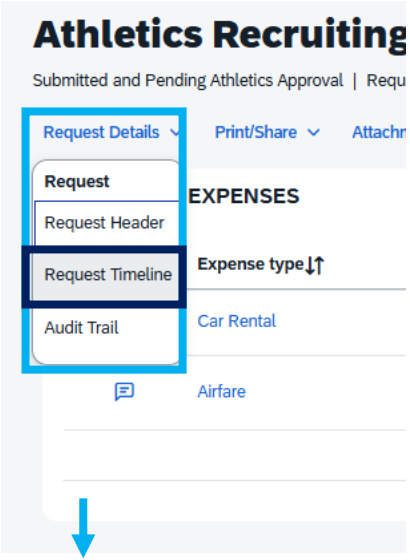

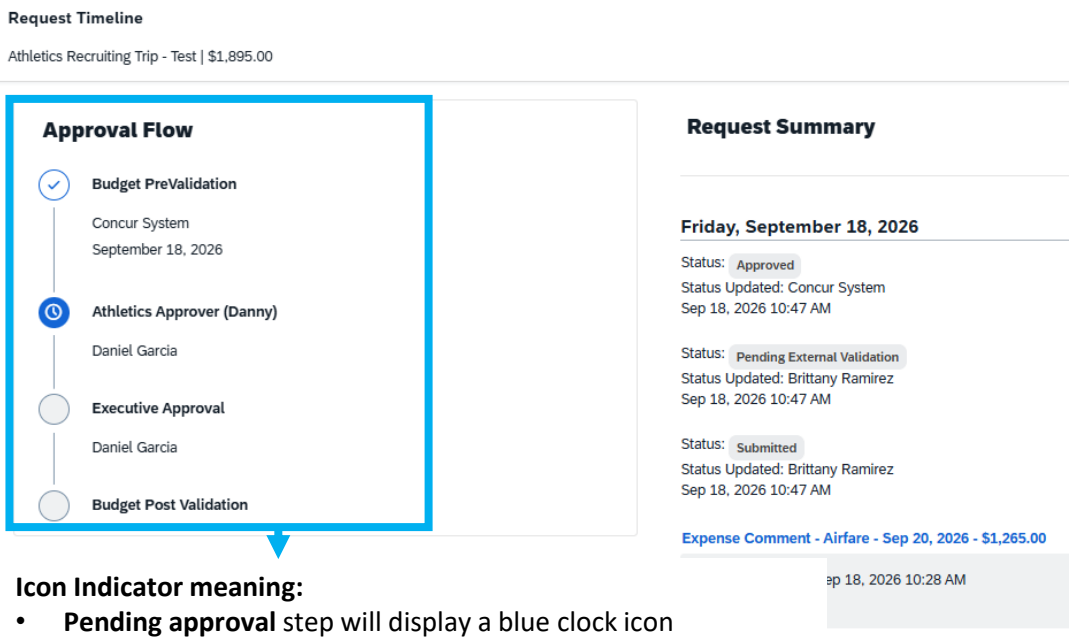

Travel Request - Status Tracking

- Once submitted by the Traveler the Travel Request tile will show the status and which area the request is pending approval from.

Travel Request- How to check the status on requests

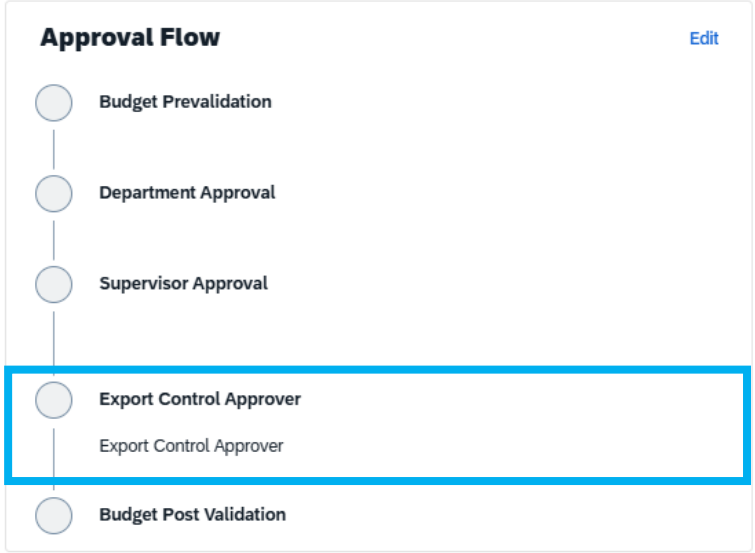

- Within the Travel Request, navigate to the **Request Details** link directly below the Request name. Select **Request Timeline** from the drop-down menu.

Icon Indicator meaning:

- **Pending approval** step will display a blue clock icon
- **Approved approval** step(s) will display a circle with a blue checkmark
- **Future pending approval** step(s) will display an empty circle.

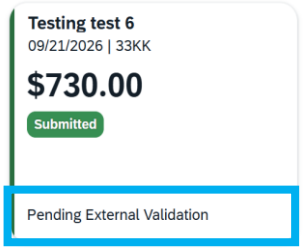

Travel Request Status Tracking – International Travel

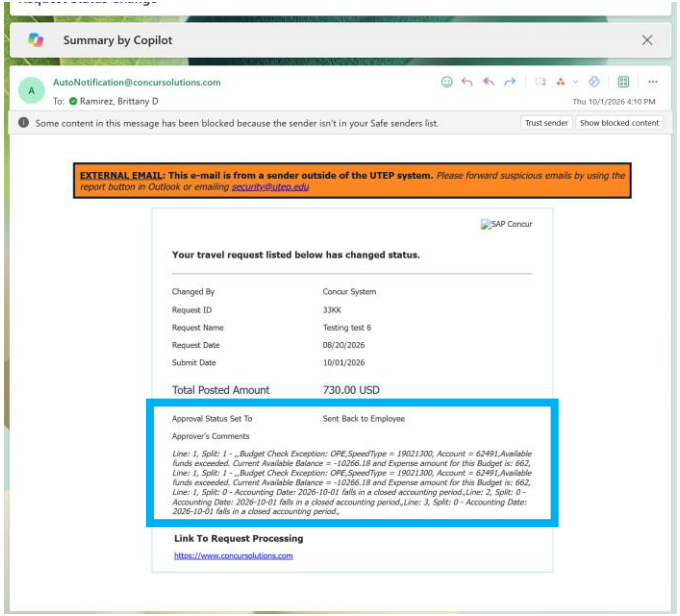

- Every Travel Request with an **international destination** routes to **Export Control** for approval, the step is added automatically.
- Requests to restricted regions also route to the **International Oversight Committee** (IOC).
- These workflows did not exist in PeopleSoft, they are built into Concur.
- Use the Request Timeline to see where the request sits, and plan for the extra step when timing your submission.

Travel Request – Budget Validation Error

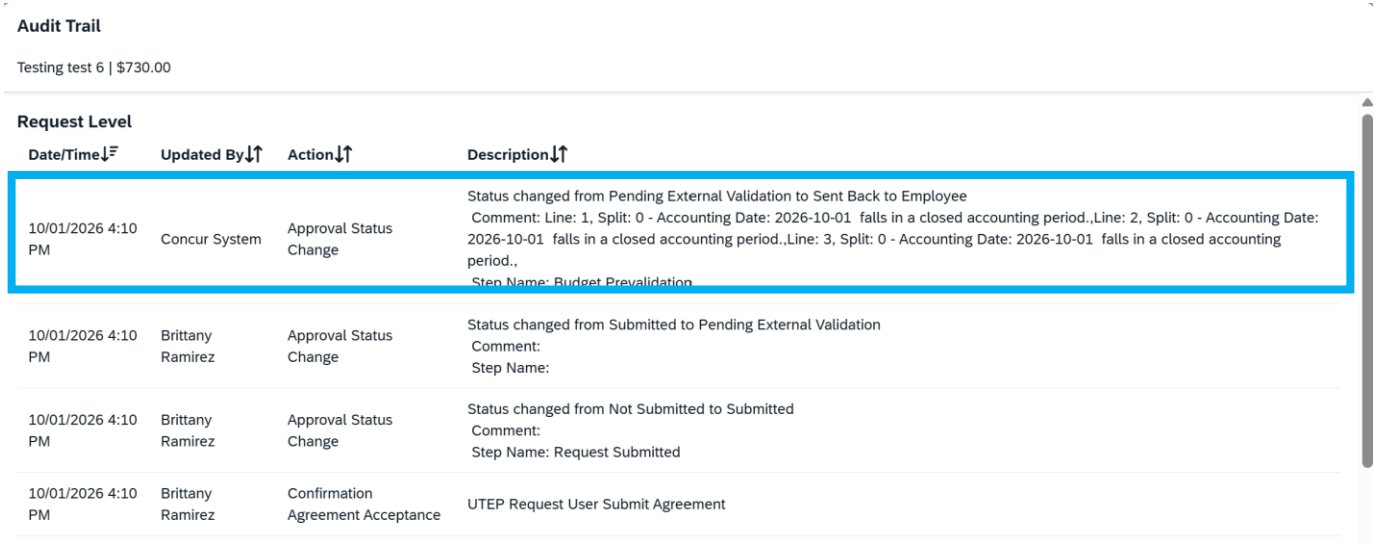

Pending External Validation indicates that Budgeting is reviewing the request to verify funding and ensure there are no budget-related issues. If funding is unavailable or a correction is needed, the request will be returned to the requestor for updates. Any status changes and comments will be communicated **by email** and can also be viewed in the **request's timeline** and **audit trail** within Concur.

Travel Request – Budget Validation Error

The Audit Trail captures a detailed history of actions taken on the request, including who made changes, what was updated, and when the activity occurred.

Hands on Training – Travel Request

Your turn — create a request in the training site

Practice scenario

You are attending a three-day conference in Chicago. Registration is paid in advance, you will fly, stay two nights, and drive to the airport.

Build a Travel Request that includes:

- Correct request policy and trip type
- Trip purpose, dates, and destination
- Department, SpeedType, and Fund Code
- Airfare, lodging, and rental car estimates
- Meal per diem through Travel Allowance

What good looks like

No open alerts
Every alert is cleared or explained before you submit

Right funding
Fund Code matches the SpeedType you selected

Realistic estimates
Estimates are close to what you expect to actually spend

Ready to submit
Required fields complete and the request created

Project team members are in the room — raise your hand and we will work through your document with you.

How Approval Routing Works

Approvals required today are still required in Concur

Standard Routing

Travel requests route to the supervisor in PeopleSoft, then to the funding source approver. There is no dollar-limit escalation.

Grant Travel

Grant travel routes to the PI and then to Grants Management, exactly as it does today.

Policy Exceptions

Missing Receipt Declarations and over-threshold items route for additional review — travel to the dean or VP, entertainment to the VP for Business Affairs.

Fewer Redundant Approvals

If costs were approved on the request and stay within the approved amount, the expense report moves to final review without repeating those approvals.

What you will see

- Approval emails when a document needs your attention
- Return notifications when something comes back to you
- Recall options while a document is still in workflow
- Status tracking and full approval history on every document

Chicago Trip Example

When actual costs stay within the amount approved on the Travel Request

SCENARIO **Three-day conference in Chicago • Registration paid in advance • Airfare • Two hotel nights • Drive to the airport**

1 Travel Request Estimate

Airfare	$500
Hotel, 2 nights	$500
Mileage to airport	$40
Meals & incidentals	$150
APPROVED TOTAL	$1,190

After travel

2 Actual Expense Report

Airfare	$307
Hotel, 2 nights	$425
Mileage to airport	$20
Meals & incidentals	$130
ACTUAL TOTAL	$882

Within the approved amount

The report may move to final review without repeating the same approvals.

Important: This reduced-approval example does not apply to expenses involving project IDs. Policy exceptions may also require additional review.

Expense Reports

STEP THREE

Creating an Expense Report

Actual costs, receipts, and reimbursement for travel and non-travel

STEP 1

Start from the Request

Create the travel expense report from the approved Travel Request so the trip details carry over.

STEP 2

Add Expenses

Three ways: scan a receipt, create the expense manually, or select from Available Expenses.

STEP 3

Itemize and Allocate

Itemization splits a charge by expense type, such as lodging. Allocation splits it across funding sources.

STEP 4

Attach Receipts

Attach each receipt to its own expense line — not uploaded in bulk the way PeopleSoft allowed.

STEP 5

Clear Alerts

Resolve missing fields and required receipts, and enter justification for any policy exception.

STEP 6

Review and Submit

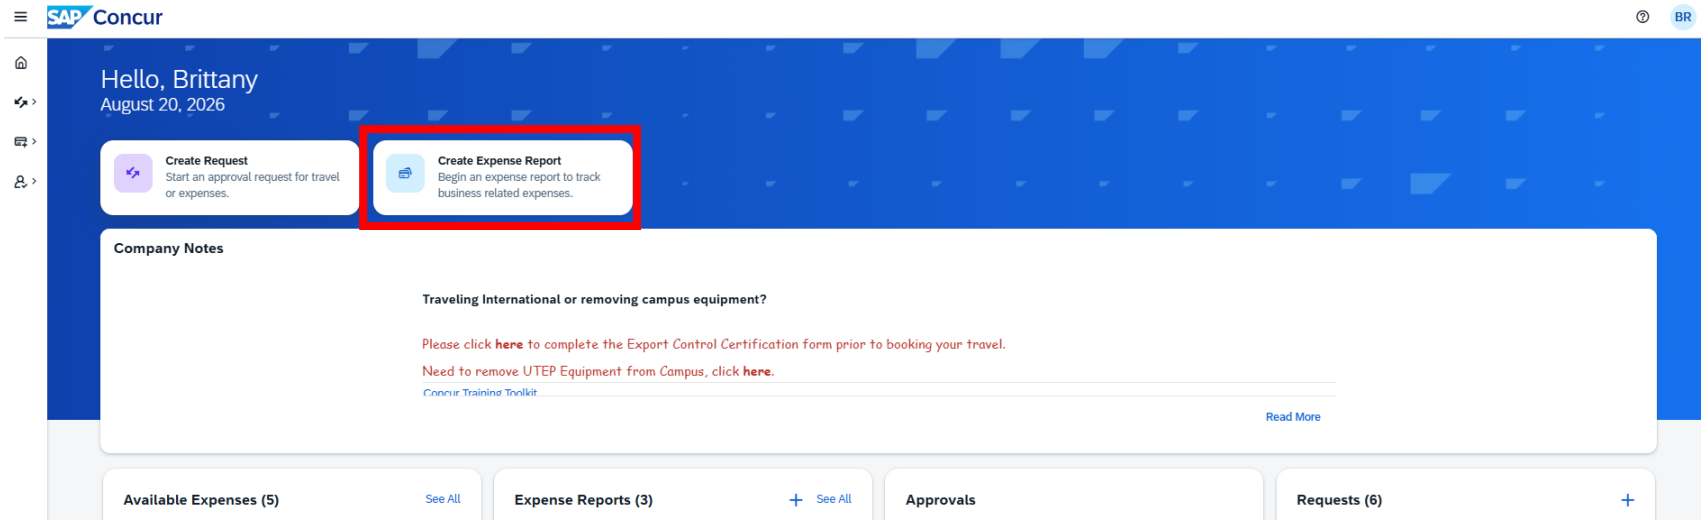

Review the report, accept the certification, and submit. Track it from the report timeline.

Travel Request = estimated costs. Expense Report = actual costs. Reimbursement comes only after the expense is incurred.

Creating an Expense Report

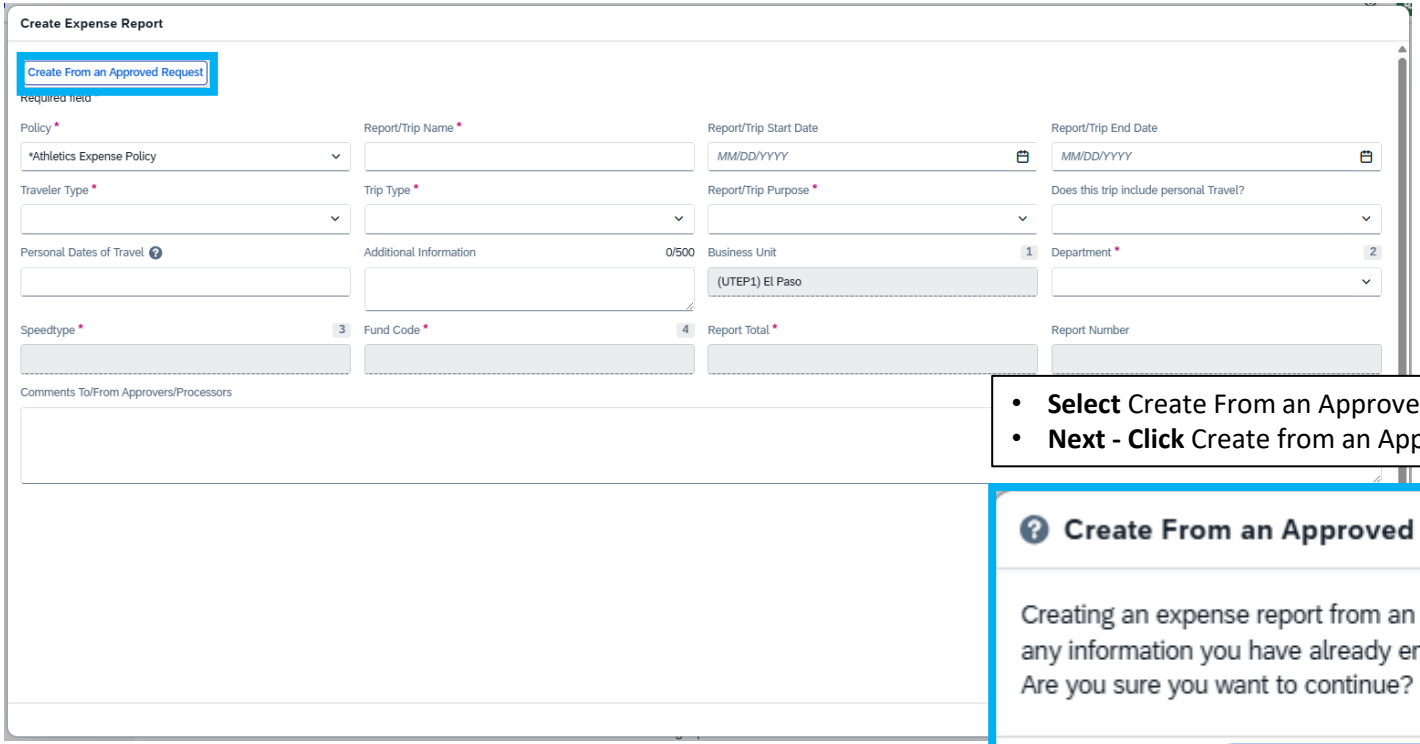

Actual costs, receipts, and reimbursement for travel and non-travel

- **Select** Create Expense Report

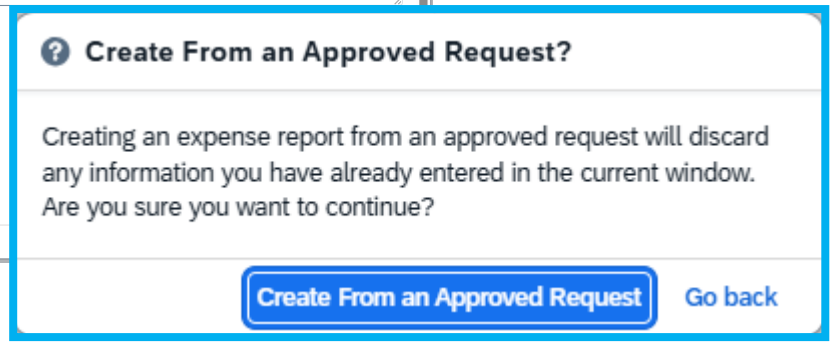

Creating an Expense Report

Approved Travel Request

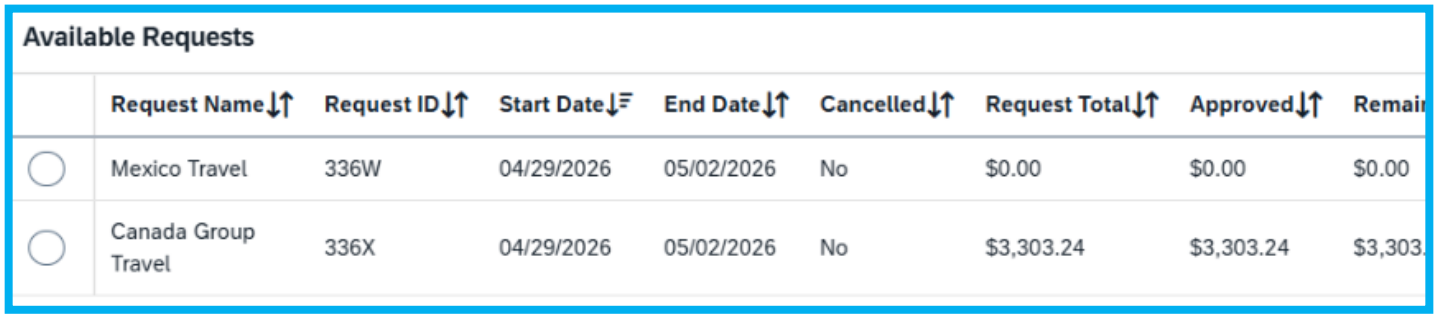

- **Select** Create From an Approved Request
- **Next - Click** Create from an Approved Request

Creating an Expense Report

- **Select** an Available (Approved) Request
- **The Expense Report will auto-populate with expense types from the approved Travel Request.** Users can now add or change information in the prepopulated expense type fields and attached receipts to these expense types.
- Now let's start Adding in Expenses!

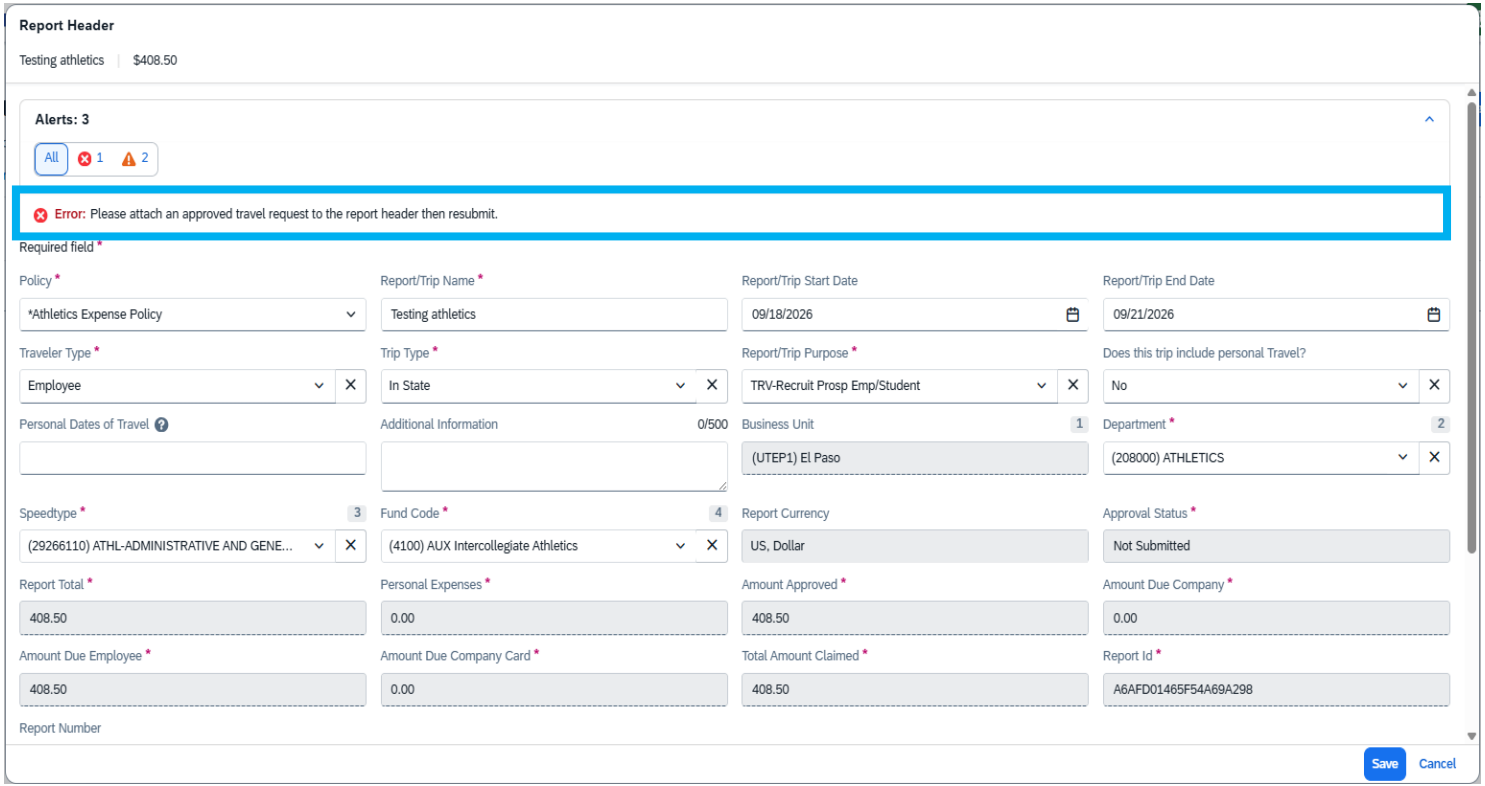

Available Requests

	Request Name	Request ID	Start Date	End Date	Cancelled	Request Total	Approved	Remai
◯	Mexico Travel	336W	04/29/2026	05/02/2026	No	$0.00	$0.00	$0.00
◯	Canada Group Travel	336X	04/29/2026	05/02/2026	No	$3,303.24	$3,303.24	$3,303.

Creating an Expense Report

No approved Travel Request = Error!

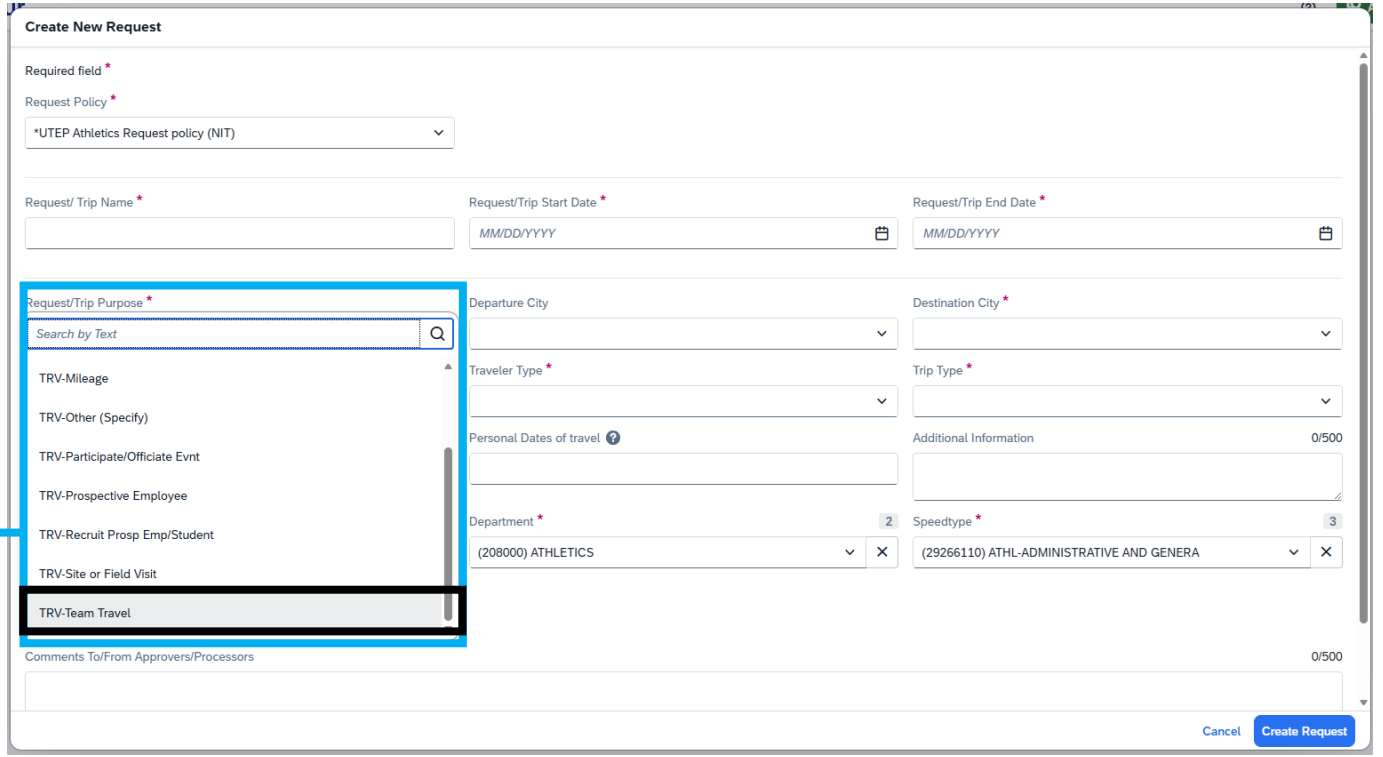

- If you attempt to create an Expense Report **without an approved Travel Request**, you will receive an error message and **will not** be able to continue with or submit the Expense Report.

Creating an Expense Report – Team Travel

ONLY EXCEPTION!

When **Report/Trip Purpose** = Team Travel is selected, then a travel request is **not required,** and you can continue to create an expense report.

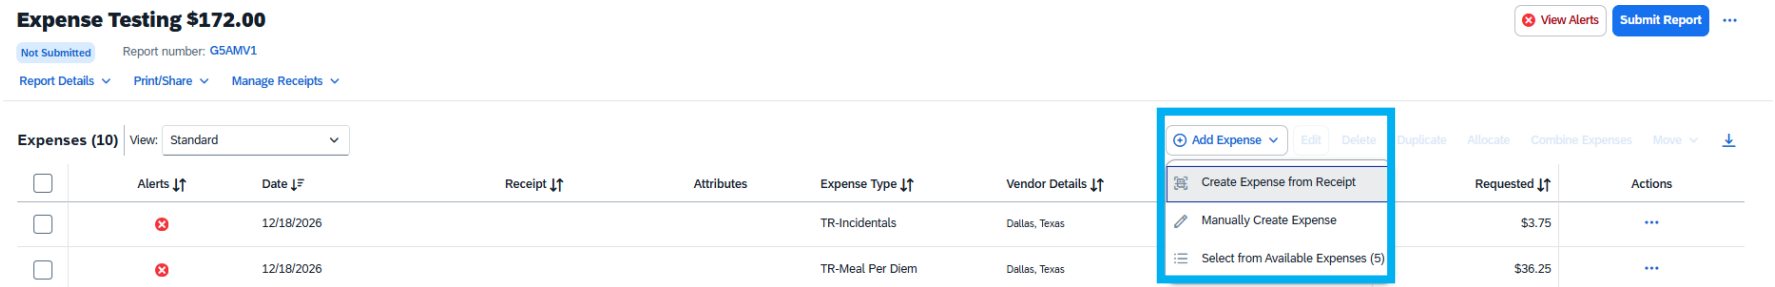

Creating an Expense Report – Adding Expenses

Once your expense report is created, there are three options to add expenses.

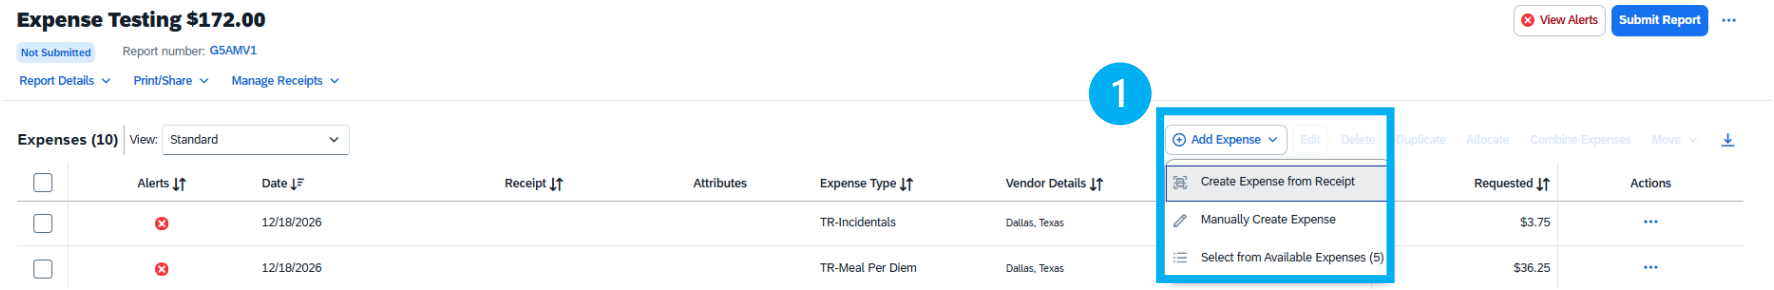

Choose one of three ways to add an expense:

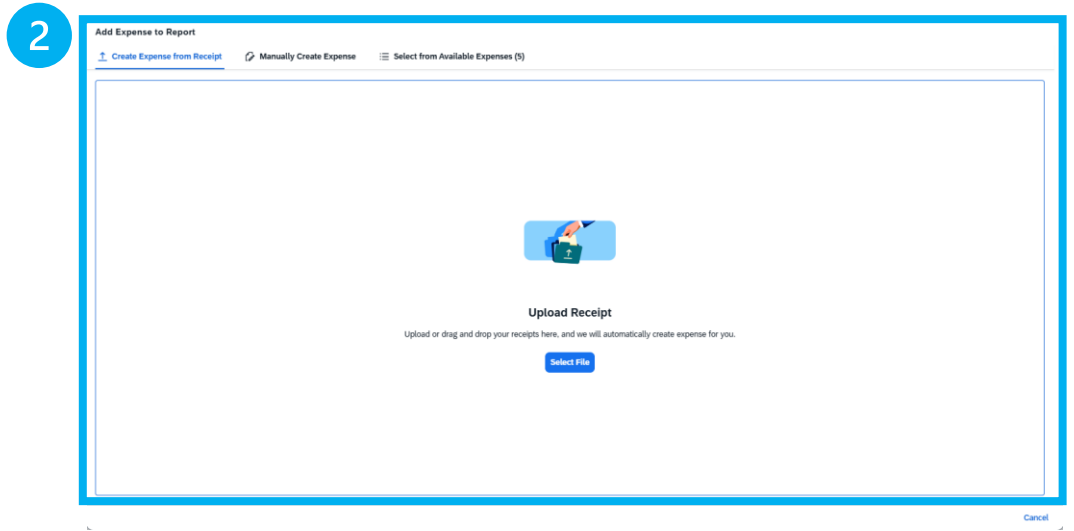

1. From a Receipt
2. Create an Expense Manually
3. Select from Available Expenses

Creating an Expense Report - Create Expense from Receipt

Once your expense report is created, there are three options to add expenses.

Option 1:

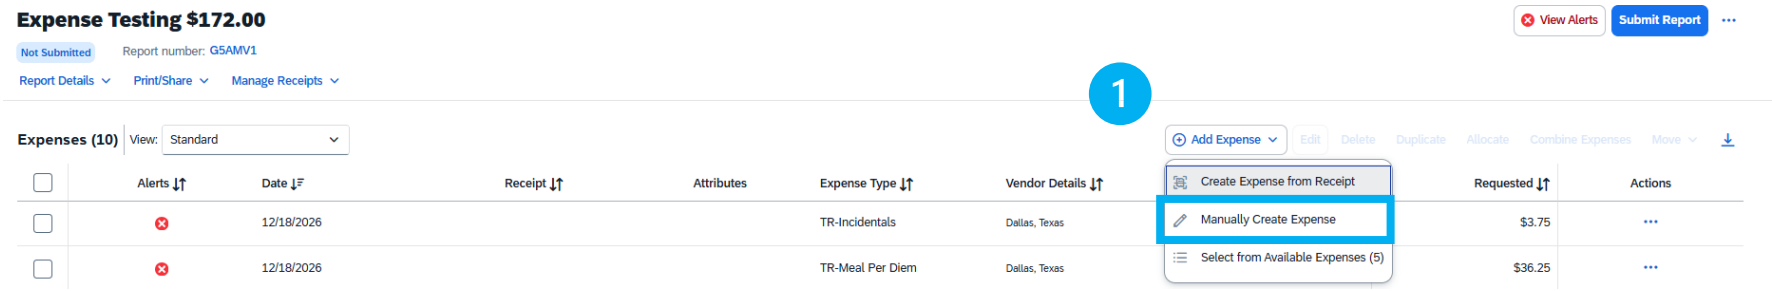

1. Add an Expense from a Receipt

- Click + Add Expense
- Select Create Expense from Receipt
- Upload your receipt and review the expense details before saving

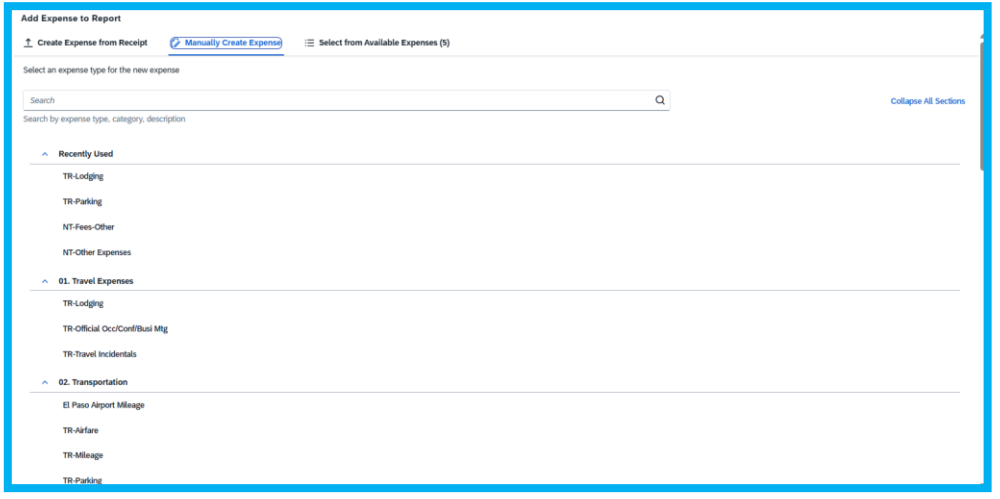

2. Upload receipt by selecting the file.

Creating an Expense Report - Manually Create Expense

Once your expense report is created, there are three options to add expenses.

2

Option 2:

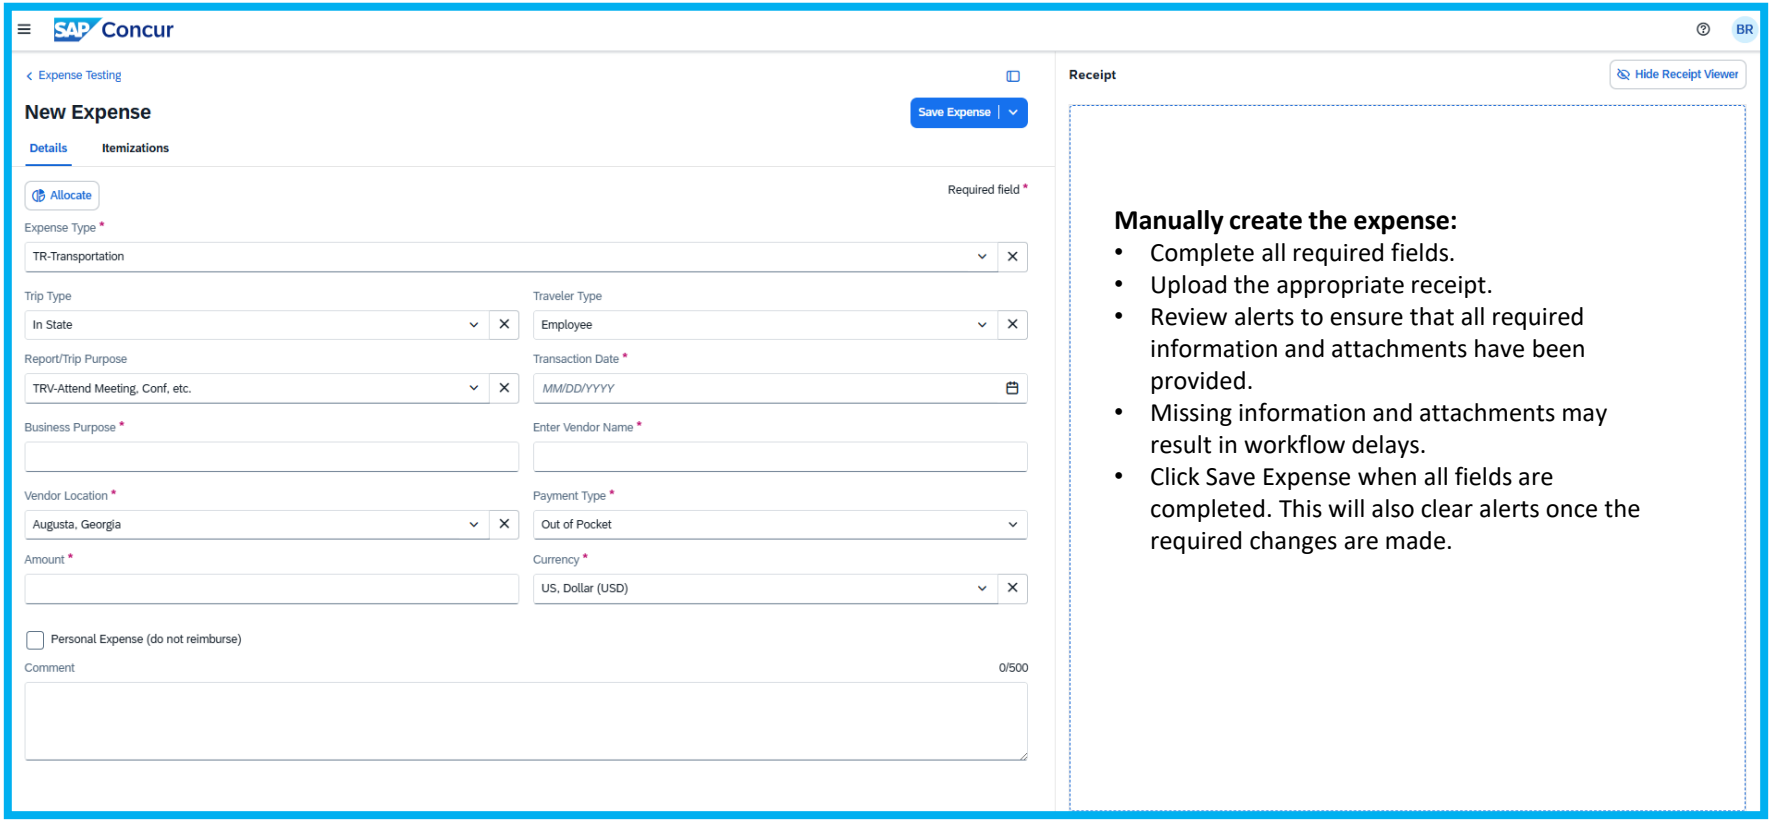

1. Manually Create Expense

- Click + Add Expense
- Select Manually Create Expense

2. Pick an Expense Type.

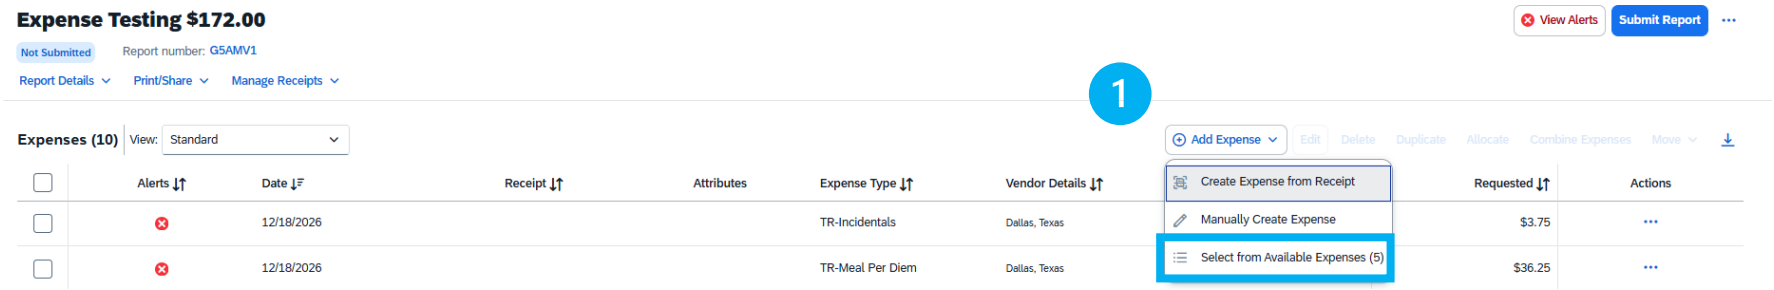

Creating an Expense Report - Manually Create Expense

Option 3:

1. Select from Available Expenses (#)

- Click + Add Expense
- Select from Available Expenses

2. Pick from the available expenses listed

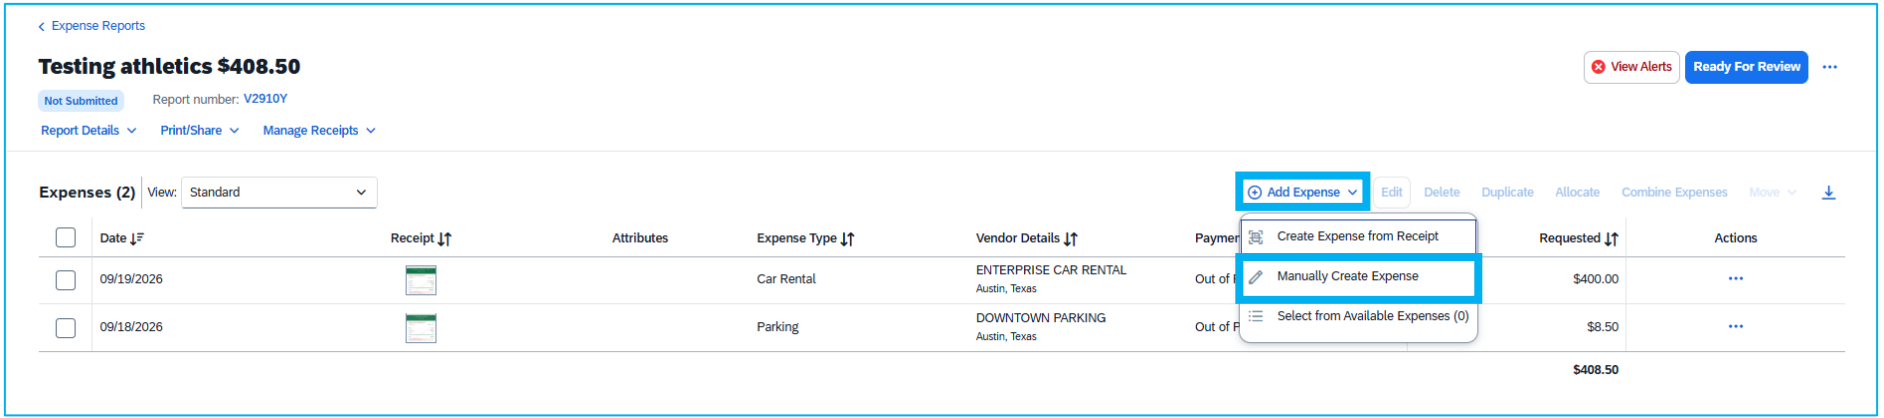

- Card Transactions will appear here as well

Creating an Expense Report – Adding Non-Travel Expenses

Adding Non-Travel Expenses to a Travel Expense Report

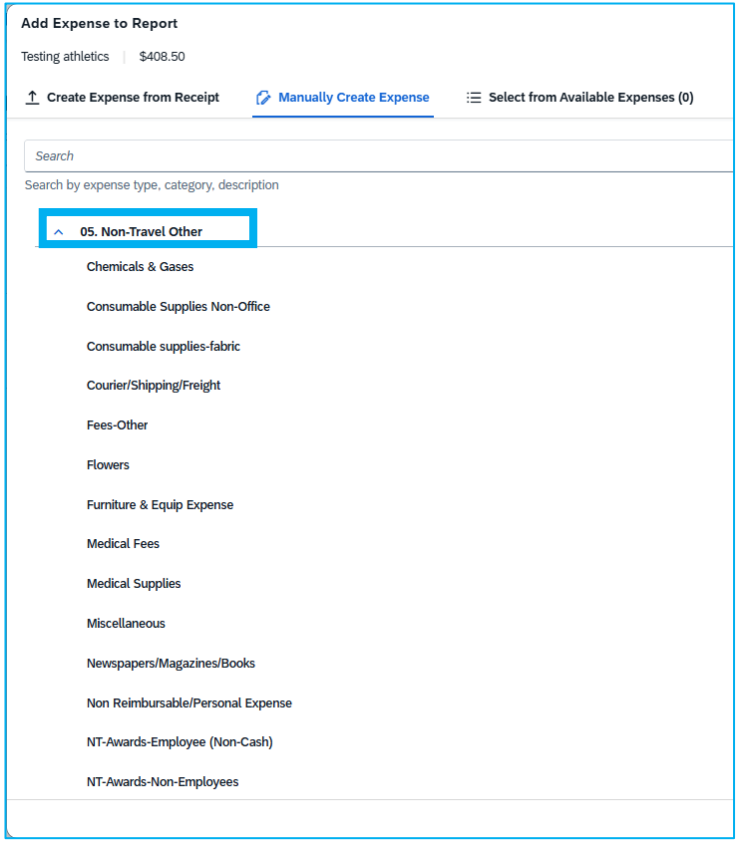

- You can include **non-travel expenses** on the same **Expense Report as your travel expenses**, eliminating the need to create a separate Expense Report.
- To add a non-travel expense:
  - Open your Expense Report, select **+ Add Expense**
  - Then choose **Manually Create Expense.**

Creating an Expense Report – Adding Non-Travel Expenses

Adding Non-Travel Expenses to a Travel Expense Report

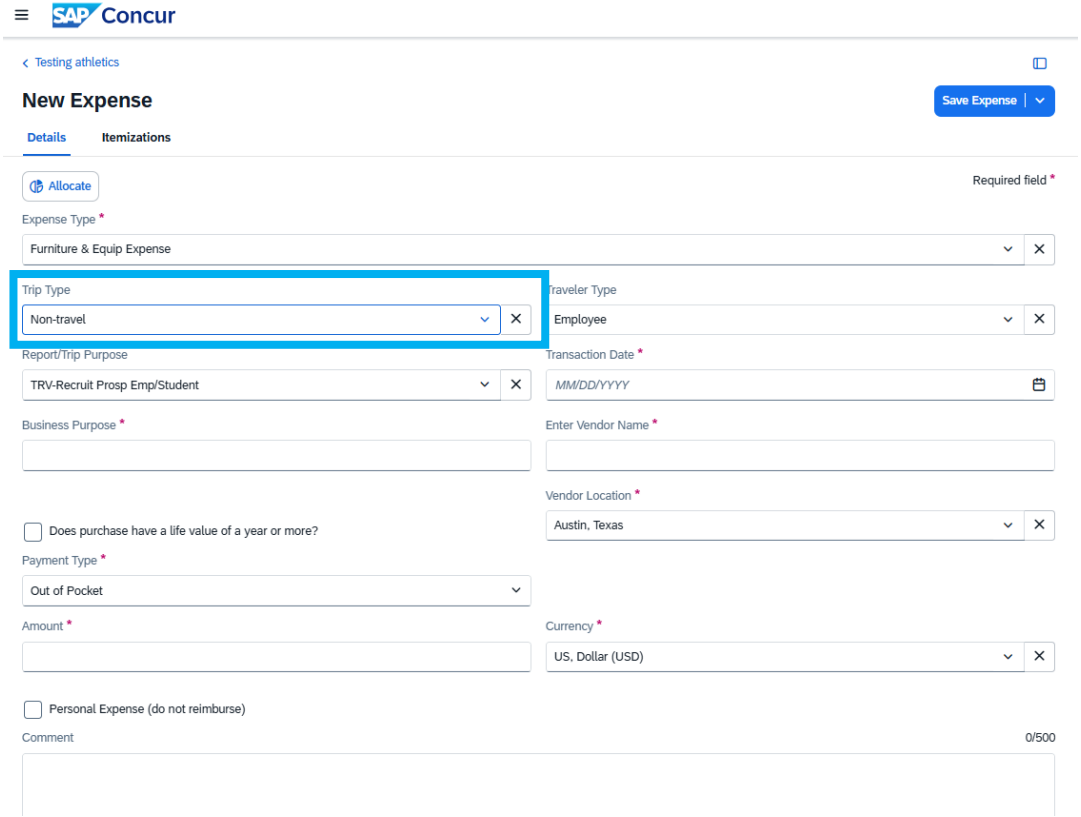

- Scroll down to **the 05. Non-Travel Other** section to view the available non-travel expense types.
- Select the appropriate expense type, and the Expense Details and Itemization window will automatically open.

Creating an Expense Report – Adding Non-Travel Expenses

Adding Non-Travel Expenses to a Travel Expense Report

- Complete all required fields for the non-travel expense.
- Be sure to change the **Trip Type** field to **Non-Travel**.
- Once all information has been entered, add itemizations if applicable and attach the required receipt or supporting documentation.
- And click save expense.

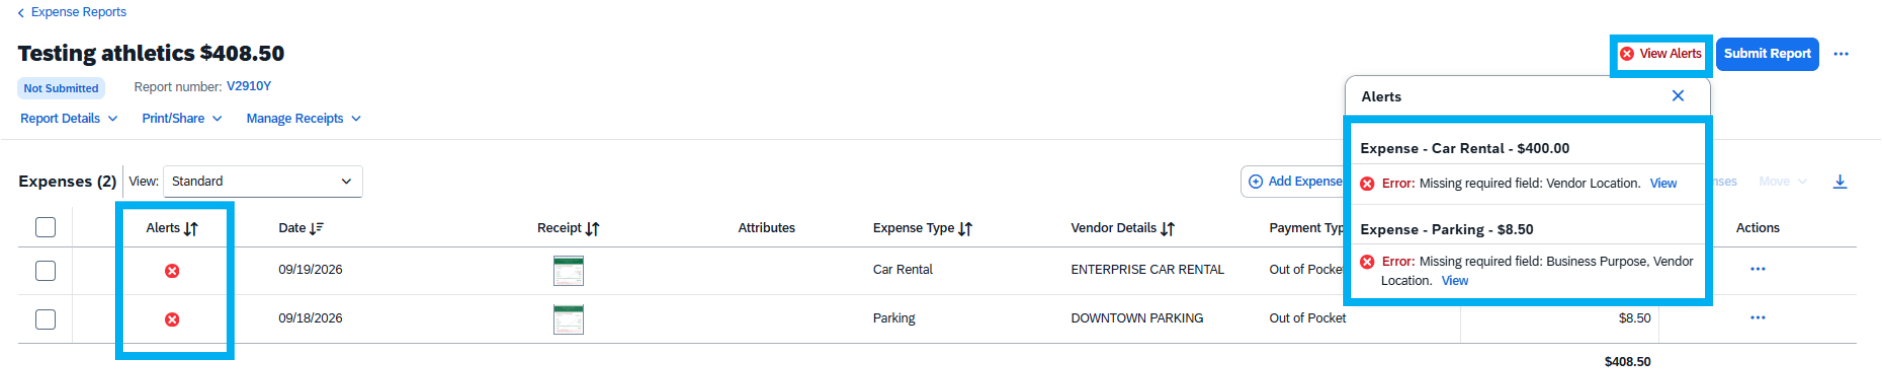

Creating an Expense Report - Alerts

Fix the Errors

Review Alerts

- Check for alerts before submitting your Expense Report.
- Click the **red X alert icon** to view and resolve specific issues.

- Once the report is open, there are **two ways to view your alerts**:
  - Select the **red X icon** next to the expense entry.
  - Select the **View Alerts button** in the upper-right corner of the report.
- A list of alerts will appear, showing any errors or warnings that need attention.
- Select **View** next to an alert to navigate directly to the issue and make the necessary correction.

Creating an Expense Report - How to Fix Alerts

Fix the Errors

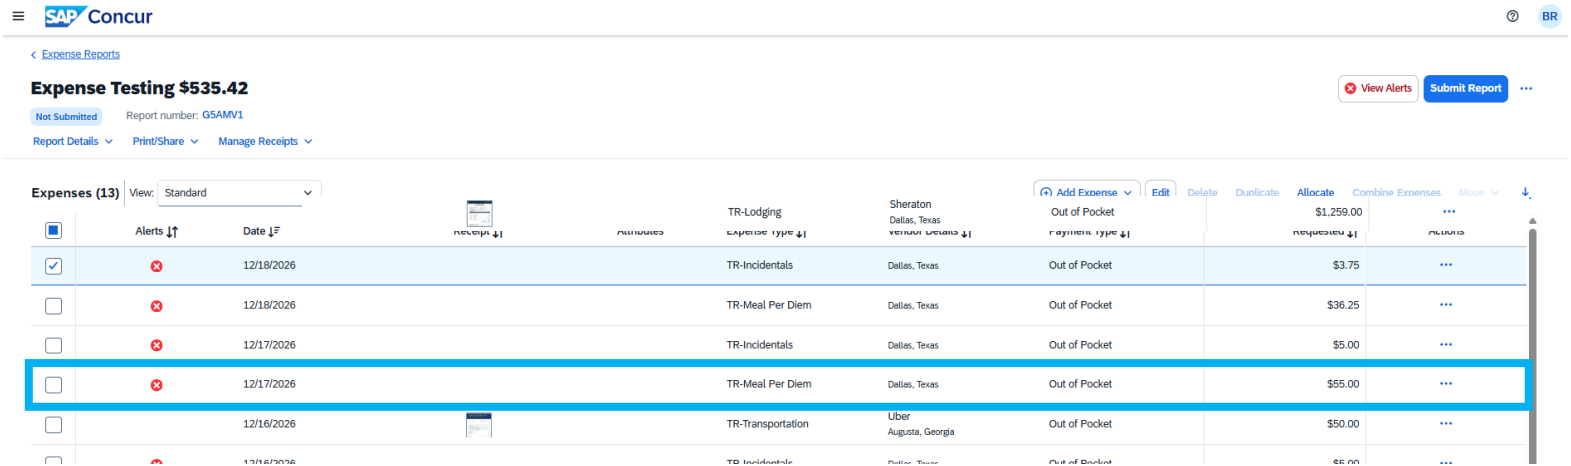

- Selecting **View** will take you directly to the expense entry that requires attention.
- The expense details page will display the alerts and identify the fields that need to be completed or corrected.
- In this example, the required fields are **Business Purpose** and **Vendor Name.**
- After updating the required information, select **Save Expense.**
- Once the expense is saved, the alerts will clear automatically.

Creating an Expense Report – Adding Expense Itemizations

Split one transaction into multiple expense types (account codes).

Itemized your expenses

- Click on the expense you need to itemize, in this example I will do my lodging.

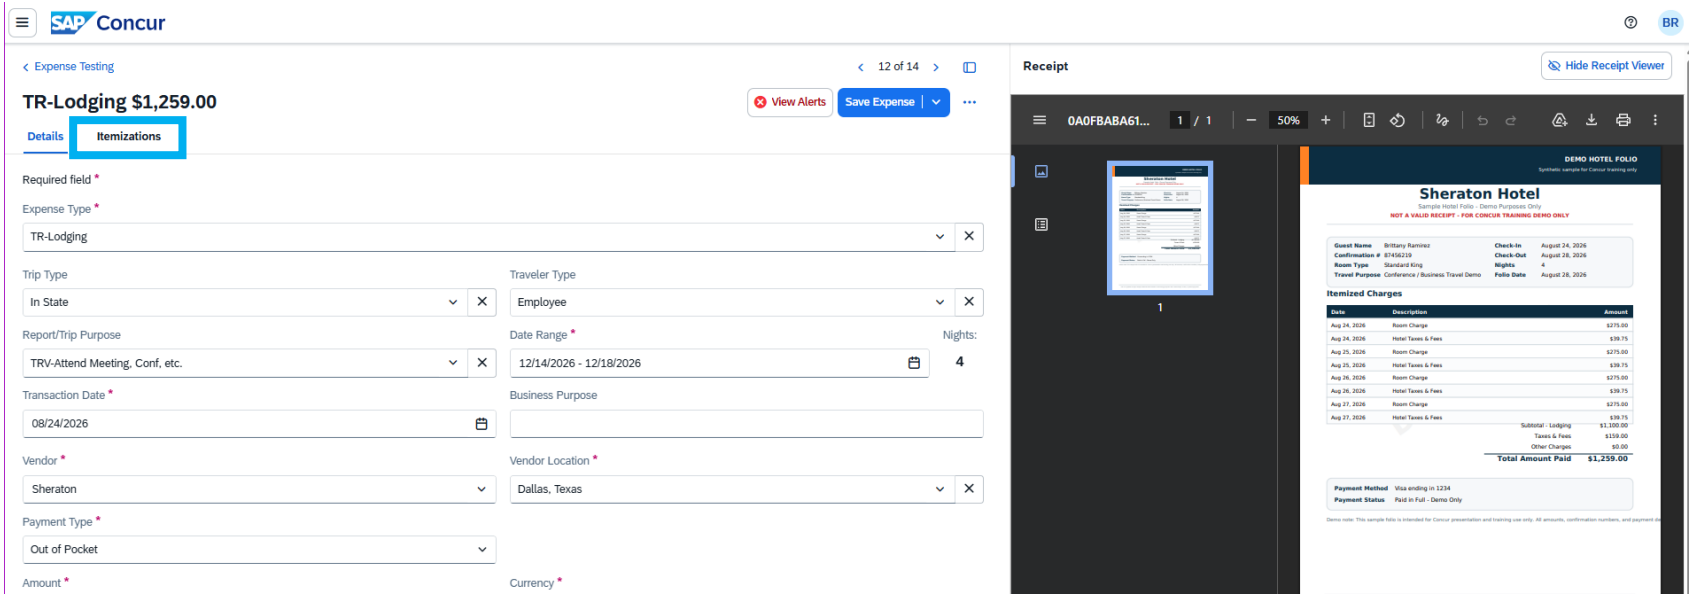

Lodging transactions must be itemized but any other transactions may also be itemized to split between two or more expense types (account codes).

Itemize Your Expenses

- This is the how it looks when you add in the itemizations.
- Click '**Save Expense**'

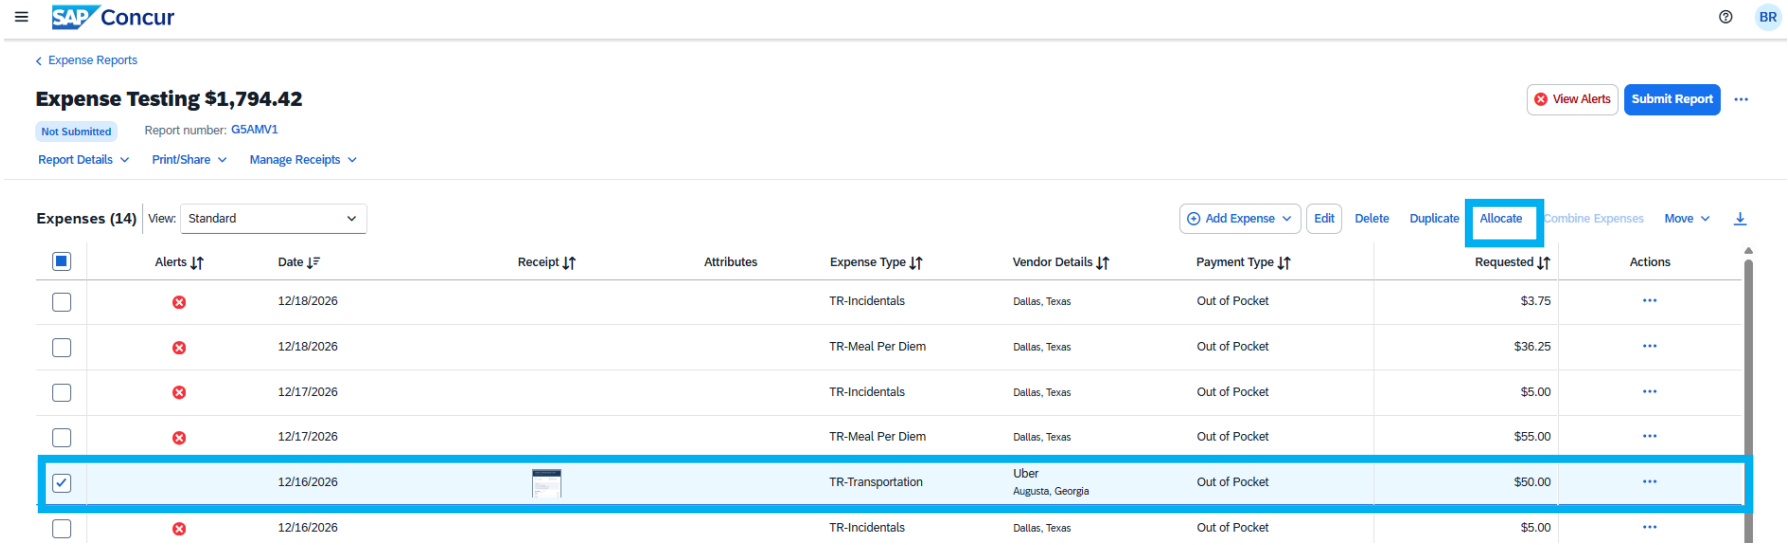

Creating an Expense Report – Adding Allocations

Splitting across funding sources

Allocations

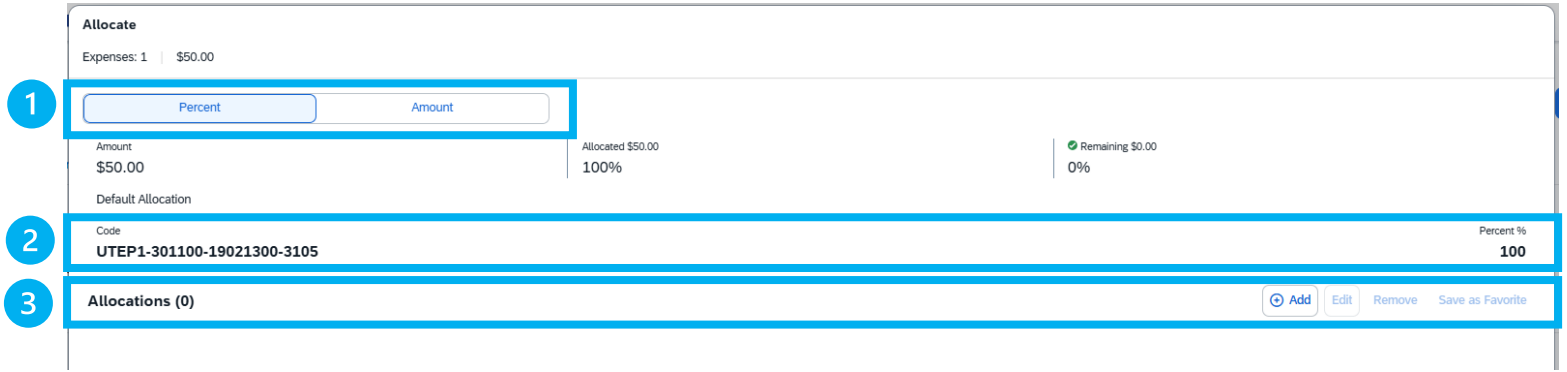

- Select an expense
- Click on ‘Allocate’

Creating an Expense Report – Adding Allocations

Splitting across funding sources

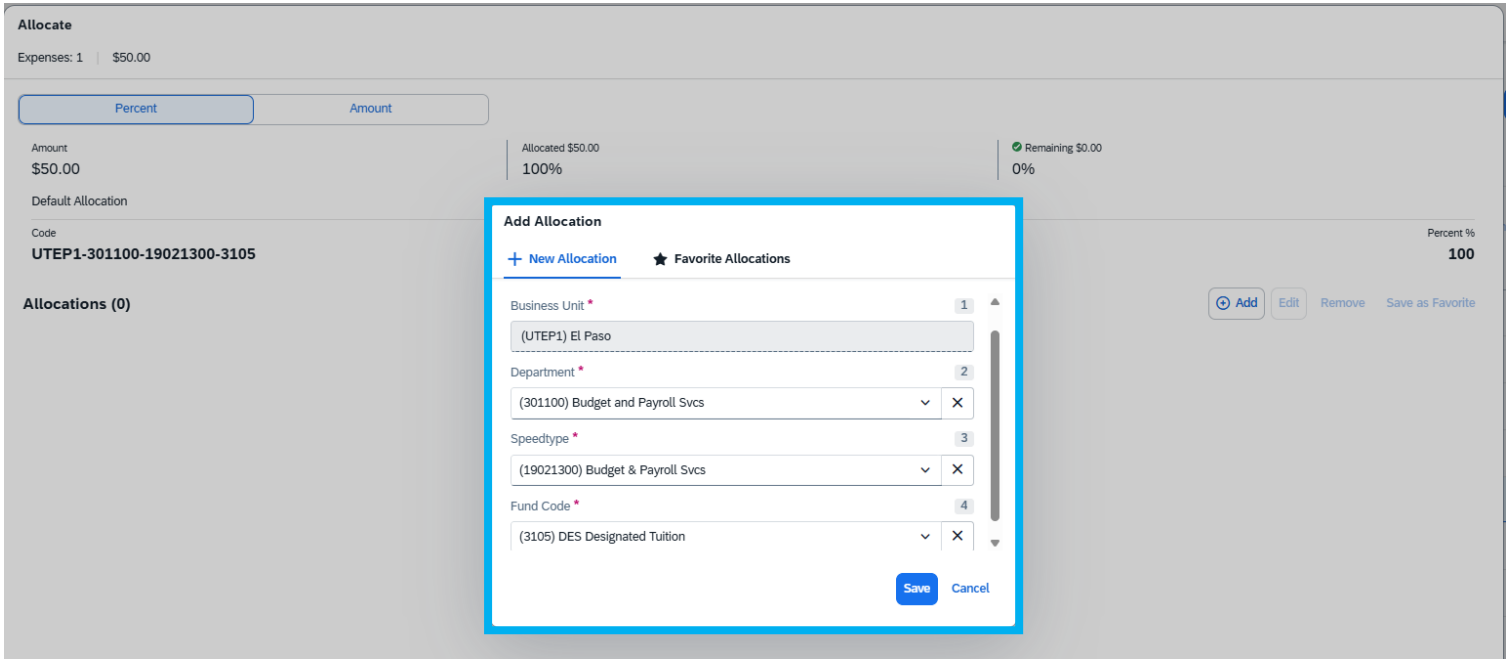

1. **Choose how you want to split the expense**
   - Select **Percent** if you want to divide the expense by percentages (for example, 50% / 50%).
   - Select **Amount** if you want to divide the expense using specific dollar amounts (for example, $25 / $25).
2. **Review the current funding source**
   - Under Code, you'll see the funding source currently assigned to the expense.
   - In this example**, UTEP1-301100-19021300-3105** is the primary funding source.
   - Because it shows **100%**, the entire expense is currently being charged to that funding source.
3. **Add additional allocations**
   - In the **Allocations** section, click **Add**.
   - This allows you to add another funding source and split the expense across multiple accounts.

Creating an Expense Report – Adding Allocations

Splitting across funding sources

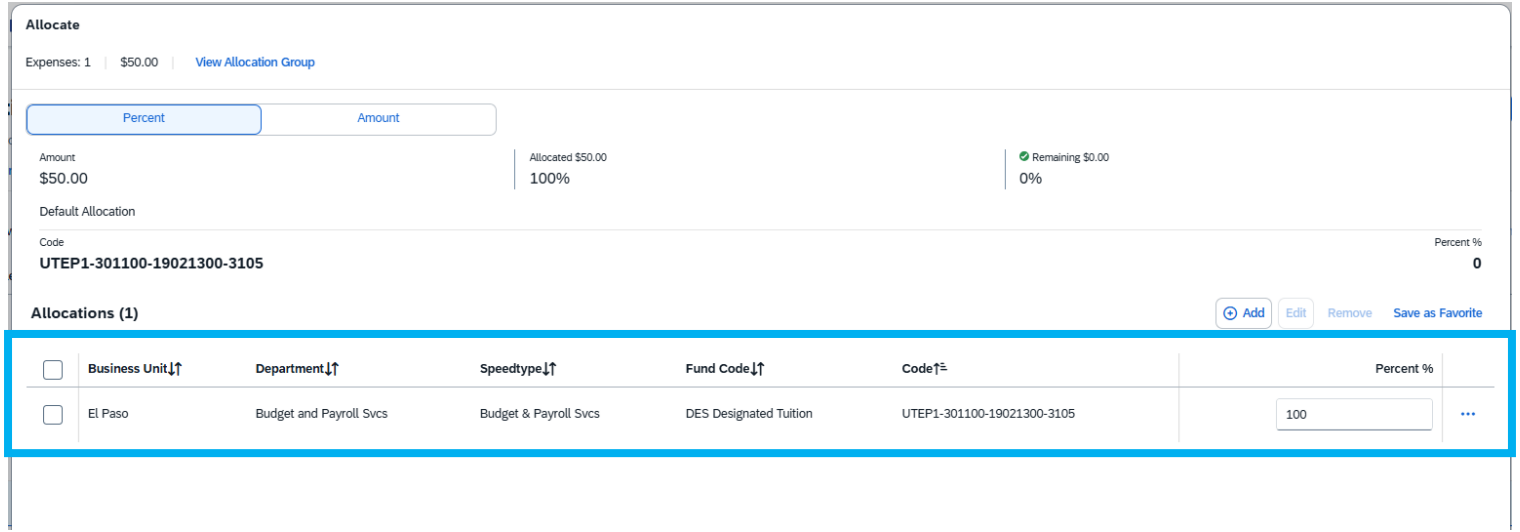

- **Add** in another funding source until the expense has been allocated as needed.

Creating an Expense Report – Adding Allocations

Splitting across funding sources

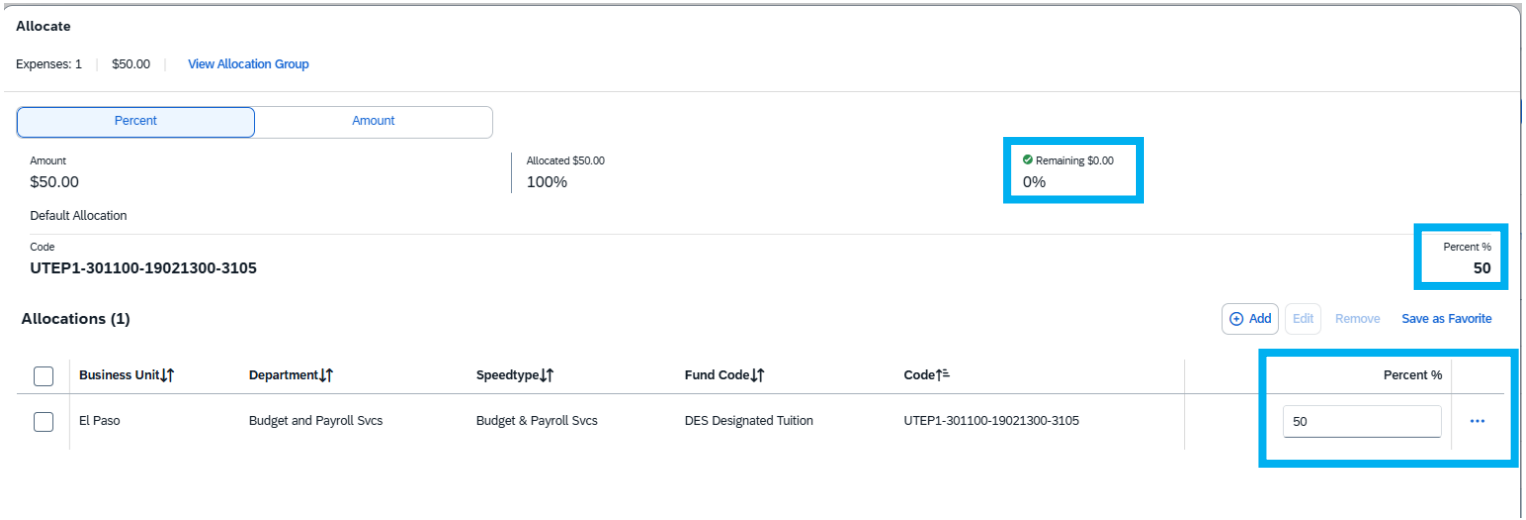

- **Enter the allocation amounts or percentages**
  - Enter the percentage or dollar amount for each funding source.
  - As allocations are added, the original funding source percentage or amount will adjust accordingly.
- **Verify the allocation**
  - Confirm the Remaining Amount displays $0.00 and 0% before saving.
  - This indicates the full expense has been allocated across all funding sources.

Creating an Expense Report – Adding Allocations

Splitting across funding sources

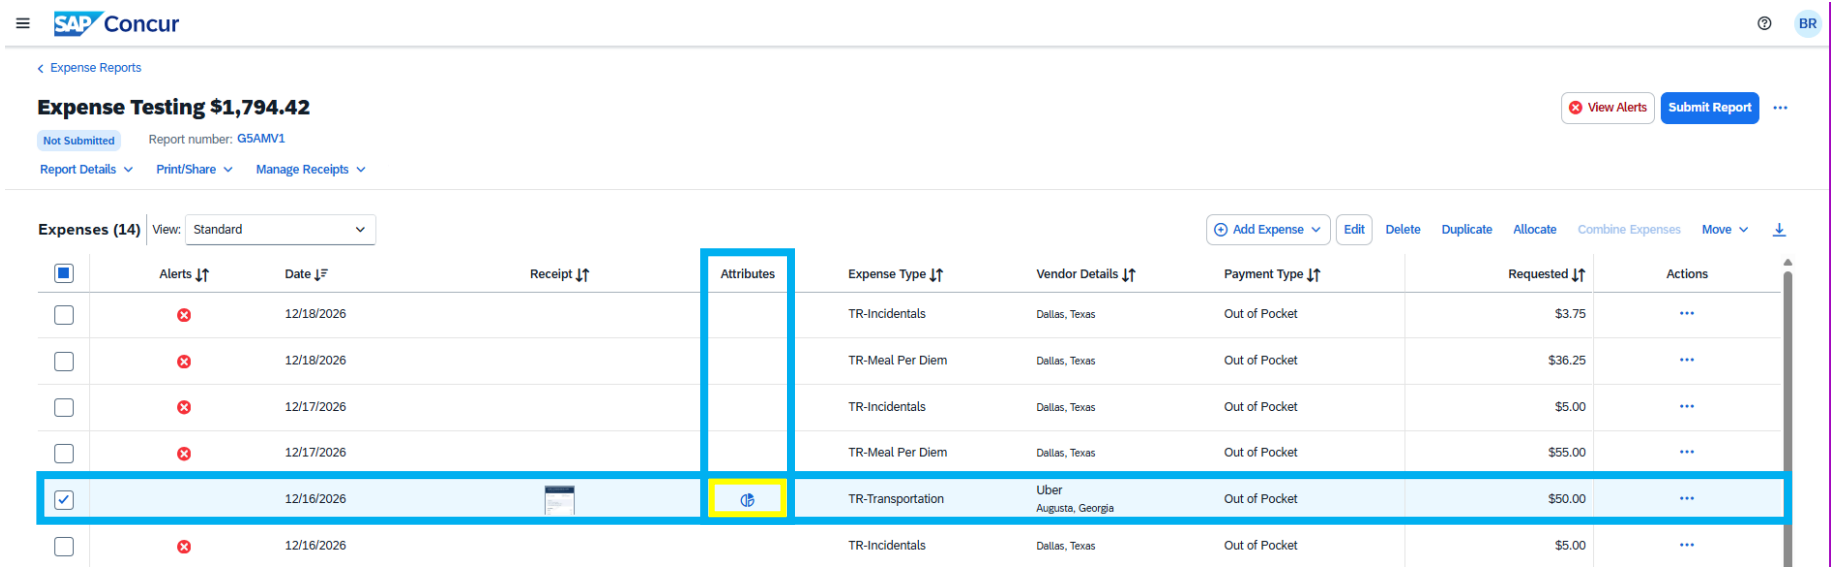

- **Example: 50/50 Split**
  - In this example, the $50 expense is split evenly between two funding sources.
  - The original funding source is charged **50% ($25).**
  - The newly added funding source is charged **50% ($25).**
  - Once the allocation is complete, the **Remaining Amount** should display **$0.00 and 0%.**

Creating an Expense Report – Adding Allocations

Splitting across funding sources

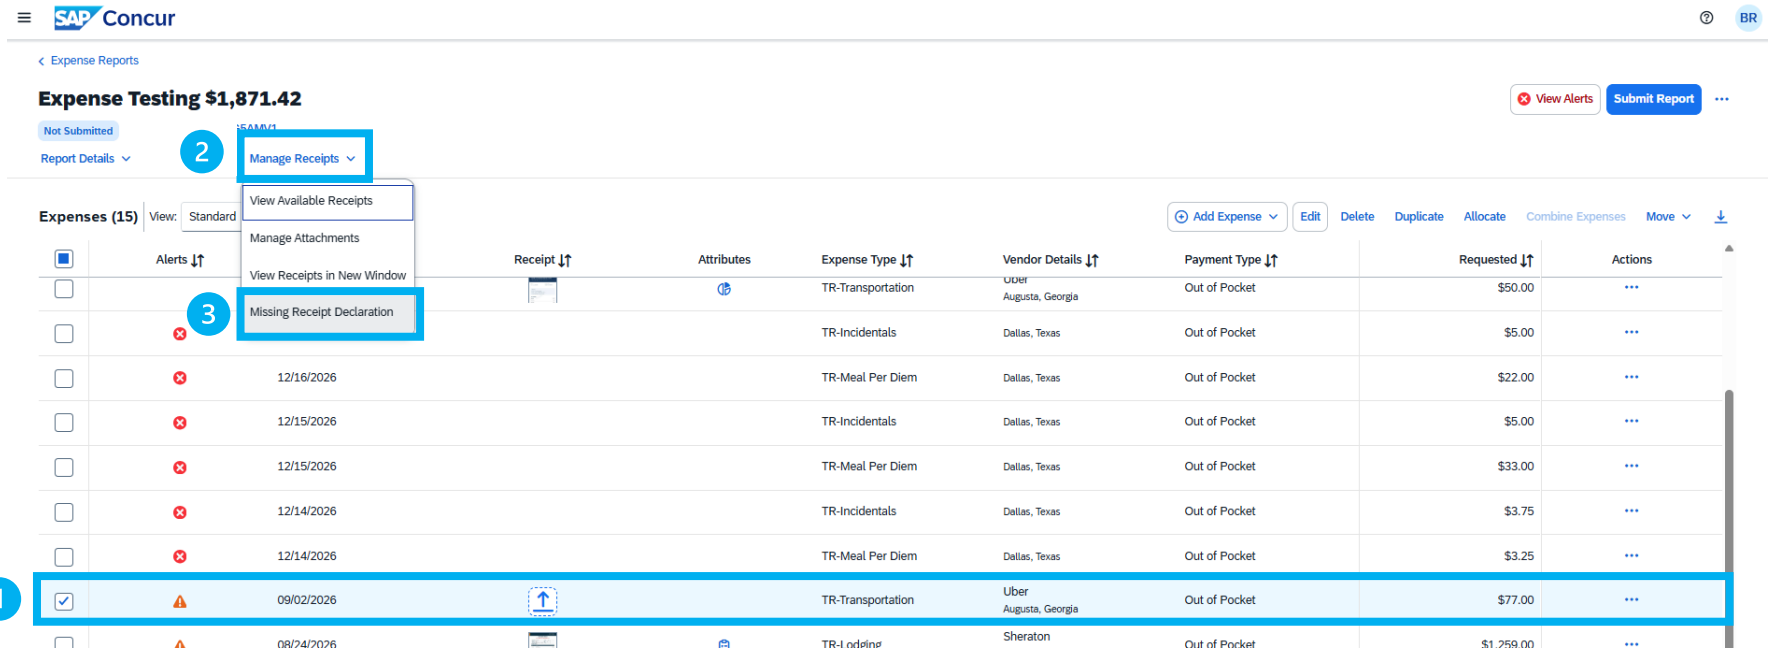

- **Back on the main Expense Report screen, you'll see an allocation icon in the Attributes column.**
  - This icon indicates that the expense has been **allocated across multiple funding sources.**
  - If the icon is present, the expense is not being charged to a single funding source.
  - You can select the expense and click **Allocate** to review or modify the allocation details.

Creating an Expense Report – Missing Receipt Declaration

Lost Receipt?

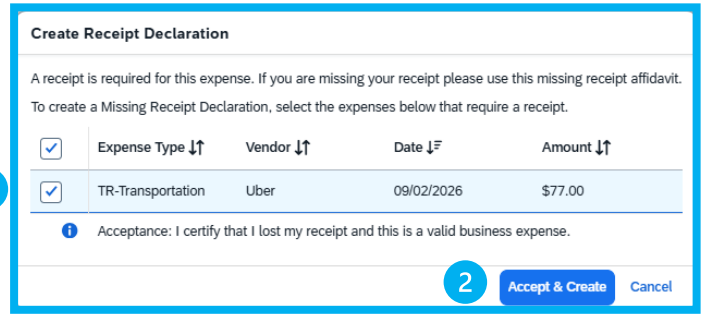

- **Lost a receipt? Concur allows you to submit a Missing Receipt Declaration for eligible expenses charged to a cost center.**
  1. Select the expense that you do not have the receipt for
  2. Click **Manage Receipts**
  3. Select **Missing Receipt Declaration**

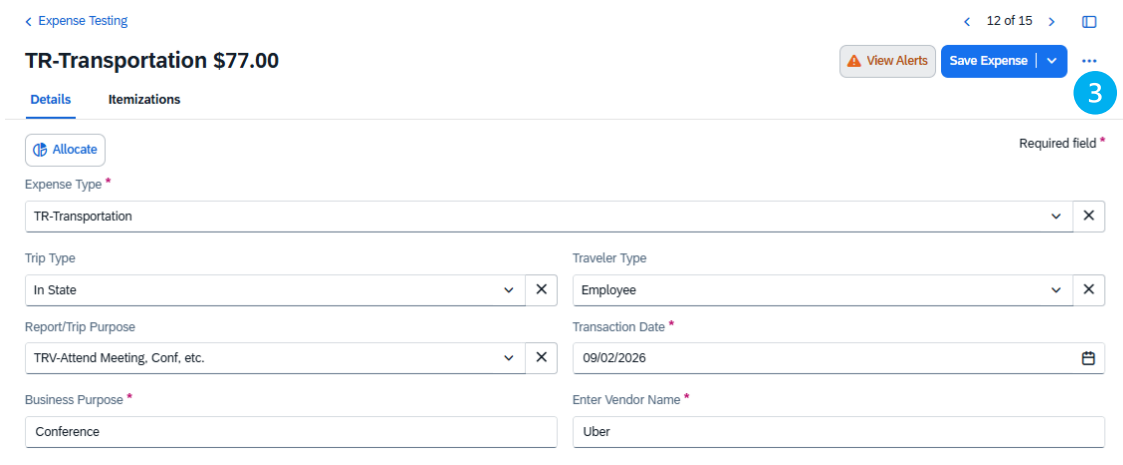

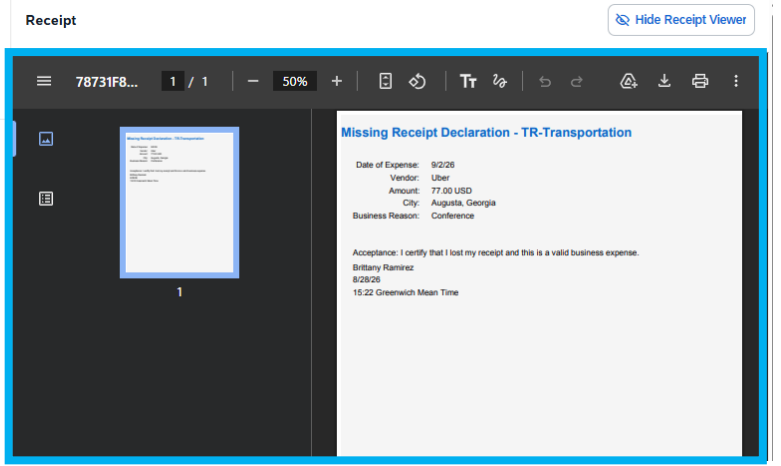

Creating an Expense Report – Missing Receipt Declaration

Lost Receipt?

1. **Select the expense** for which you do not have a receipt.
2. Click **Accept & Create** to generate the Missing Receipt Declaration.
3. The Missing Receipt Declaration will automatically be attached to the selected expense in your expense report.
    - To view the declaration, select the expense and it opens in the Receipt Viewer.

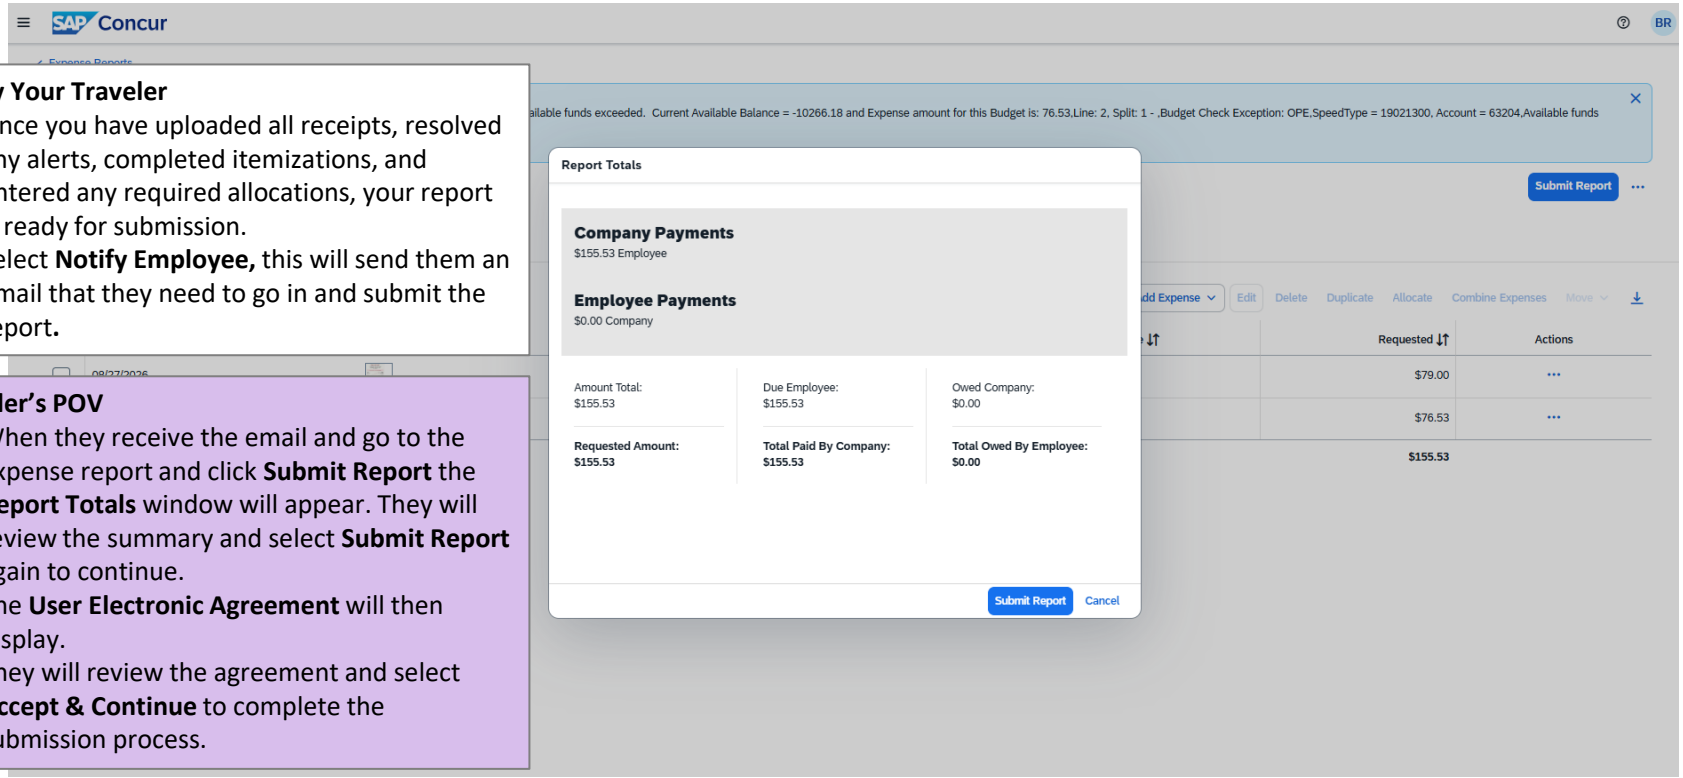

Creating an Expense Report – Review & Notify Traveler for Submission

Notify Your Traveler

- Once you have uploaded all receipts, resolved any alerts, completed itemizations, and entered any required allocations, your report is ready for submission.
- Select **Notify Employee,** this will send them an email that they need to go in and submit the report**.**

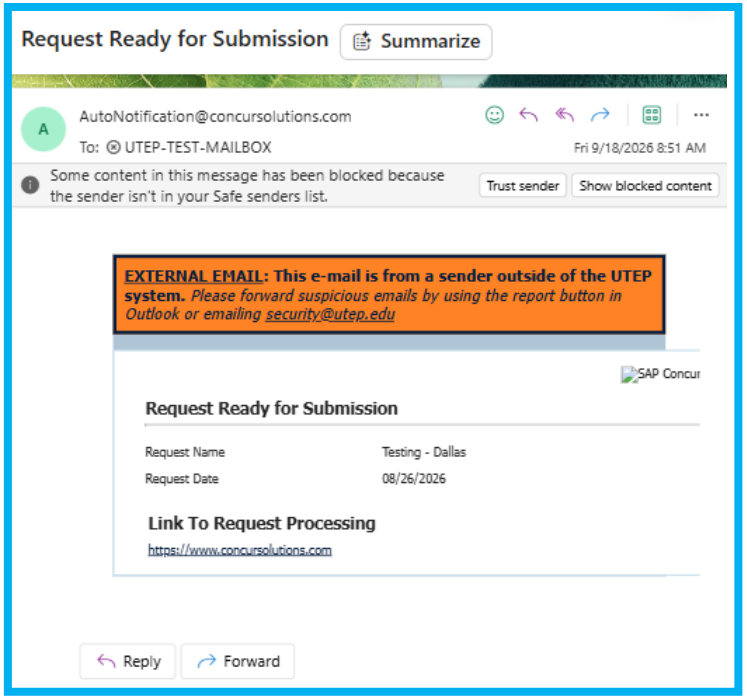

Traveler's POV

- When they receive the email and go to the expense report and click **Submit Report** the **Report Totals** window will appear. They will review the summary and select **Submit Report** again to continue.
- The **User Electronic Agreement** will then display.
- They will review the agreement and select **Accept & Continue** to complete the submission process.

Hands on Training - Expense Report

Your turn — reconcile the trip you requested earlier

Practice scenario

Your Chicago trip is complete. The hotel folio includes room, tax, and a parking charge, and you have added mileage to the airport.

Build an Expense Report that includes:

- A link to the approved Travel Request
- Available expenses imported and coded
- An itemized lodging charge
- Mileage entered with start and end addresses
- Receipts attached to the correct lines

Try these variations

Split the funding
Allocate one expense across two SpeedTypes

Lose a receipt
Use a Missing Receipt Declaration on an item over $50

Exceed a limit
Enter a justification when an audit rule fires

Track it
Find the report timeline and approval history

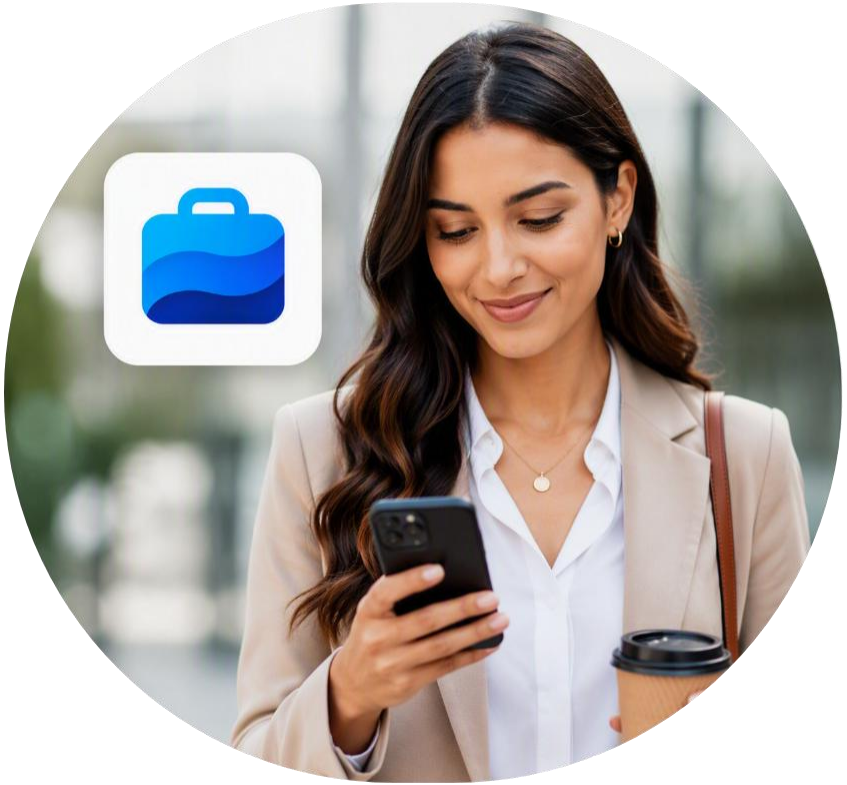

On a project or grant, receipts are required for every expense regardless of amount, and a Missing Receipt Declaration cannot be used.

What the Mobile App Can Do

Review, submit, capture, approve, and book—on the go.

Review & submit

Review and submit travel requests and expense reports.

Capture & upload receipts

Photograph receipts or upload photos and files.

Approve on the move

Approvers can view pending items and approve in the app.

Book travel

Book flights, hotels, and rental cars from your phone.

Special Travel Scenarios

Four situations that behave a little differently

01

International Travel

Currency conversion and per diem rates are built in — no separate OANDA attachment, and trips can be booked in Concur.

International travel may require additional approvals and reviews, including Export Control and, in some cases, IOC approval.

02

Washington DC Travel

The DC travel notification requirement has not changed. In Concur it appears as an alert with the contact and the form. The alert will not block you from continuing.

03

Student Travel

Waiting for verbiage or remove.

04

Group Travel

Select the Group traveler type on the request header so the trip is set up correctly from the start, then coordinate documentation for the travelers included.

What Happens After Submission?

The three questions users always ask

Where is my report?

The document timeline shows every step and who currently holds it.

Has it been approved?

Approval history lists each approver, the action taken, and the date.

Why was it returned?

The approver's comment travels with the document so you know exactly what to fix.

One answers to all three — the Report Timeline, Audit Trail, and Detail Report

Open Report Details > Report Timeline and Audit Trail to see every step, who holds the document now, each approval action and date, and any returned-with-comment. The same timeline and trail exists for both Expense Reports and Travel Requests.

Open Print/Share > Detailed Report and scroll down to the audit Trail section to see every step, who holds the document now, each approval action and date, and any returned-with-comment

Set the right expectation

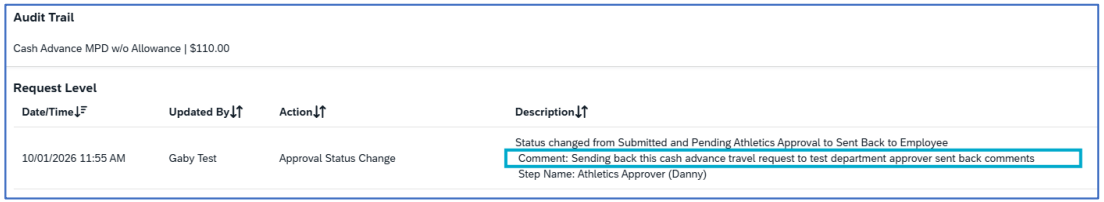

Approved does not mean paid — approved reports flow to PeopleSoft automatically and then wait for the pay cycle.

Why was it returned?

Multiple areas to navigate to look for status updates and comments

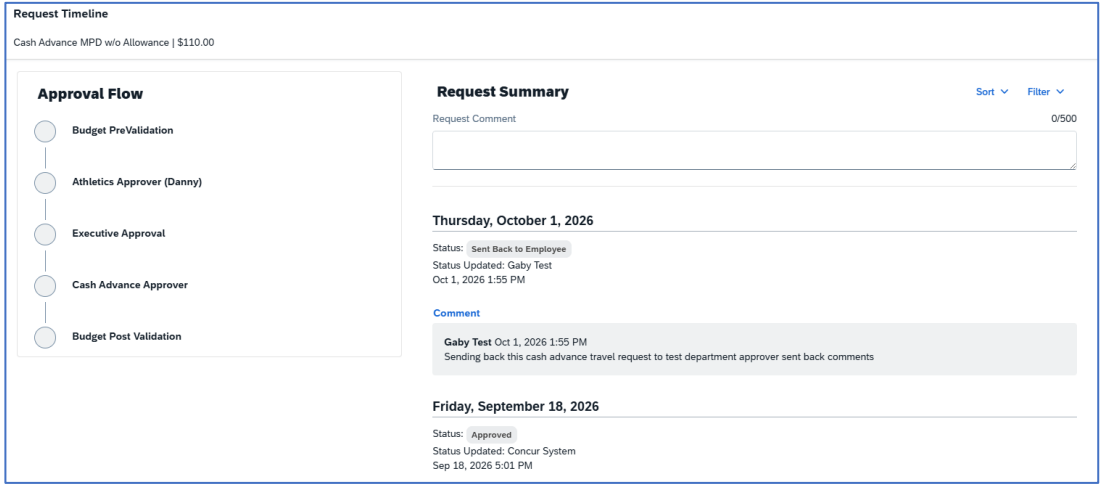

Audit Trail

Open Report Details > Audit Trail to see every step, who holds the document now, each approval action and date, and any returned-with-comment.

Request Timeline

Open Report Details > Report Timeline to see every step, who holds the document now, each approval action and date, and any returned-with-comment.
