---

### KEY MESSAGES

UTEP offers an exceptional education at a great **value**.

UTEP produces meaningful **research**.

UTEP is a national higher education **leader**.

UTEP positively impacts the economy and the well-being of the community we **serve**.

---

### OVERARCHING THEMES

#### Great Value

UTEP provides competitive academic and research opportunities at one of the most reasonable prices for a top tier university in America. Innovative programs support first-generation, historically underserved students on their paths to lifelong success.

#### Meaningful Research

UTEP is ranked among the top 5% of universities in the country for the volume and quality of our research. Faculty scholars conduct more than \$100 million worth of research annually on studies that range from water desalination and Hispanic health disparities to additive manufacturing and bilingual language acquisition – topics that advance knowledge and its application.

#### National Leader

UTEP leads the nation in educating traditionally underrepresented students while maintaining a commitment to academic excellence. It is among the top 10 U.S. universities for helping graduates move from the lowest family incomes to the highest, and advances discovery of national importance.

#### Impact

The University creates innovative partnerships that spur economic growth. Each year, UTEP contributes \$1.4 billion to the local economy. It creates new ideas that turn into products and graduates over 5,000 students every year who make a positive economic impact with the education they have earned at UTEP.
