While the classroom experience is fundamental to a UTEP education, professional preparation activities and real-world application are essential components of our exceptional instruction. As the pandemic shuttered or delayed so many rich, co-curricular learning opportunities related to professional readiness, UTEP has chosen to restore a portion of that learning through a slate of programs that delivered this valuable content through virtual means.</p> <p>Employer-led professional development institutes, entrepreneurship bootcamps, and a regional internship program are all helping to put money directly in the hands of hundreds of students while providing them content essential for post-graduate career success. In particular, students are exposed to professional communication and project management workshops, hands-on work as an interns, and cutting-edge innovation and entrepreneurial thinking. The availability of CARES funding allows UTEP faculty and staff, who are committed to world-class instruction, to design, develop, and execute the aforementioned professional-preparation programming uniquely delivered in a remote setting.</p>
