Updated: 7/06/2016

Purpose

To provide guidance regarding payments to vendors or reimbursement to employees for entertainment related expenditures.

Policy

The policy regarding departmental expenditures or reimbursement of expenses for entertainment meals or refreshments will be permitted only when such expenditures are of demonstrable **benefit** to the University.

The expenditures must be made in a prudent manner and must serve to assist in carrying out the University's educational function.

Entertainment expenditures include the cost of business meals, purchase of food, and or refreshments for University sponsored events and the cost of tickets for entertainment events. If an official entertainment expense for meals is incurred during an official business trip then the related meal reimbursement should be deducted from the individual's per diem allowance.

Entertainment expenditures are considered appropriate under the following circumstances:

- Recognition or promotion of academic/athletic achievement, scholarship and/or service
- Promotion or communication of intellectual ideas and/or exchange of administrative and operational information on University programs or activities
- Support of University sponsored student events and activities
- Recruitment of students, faculty, staff
- Assistance to the Regents, accrediting agencies, officials from other universities, etc.
- Support of a program of continuing education

Reimbursement for official entertainment expenses may be claimed by submitting a local funds voucher (non-Purchase Order) along with a properly completed [Entertainment Expense Form](#).
