

# Internet Explorer - Deleting Cache

1. Click on the Tools Tab or the gear icon on the upper right corner.
2. Select **Internet Options**.

3. Click on the **General** tab.
4. Under **Browsing History** select "Delete browsing history on exit".
5. Click on the **Delete** button.

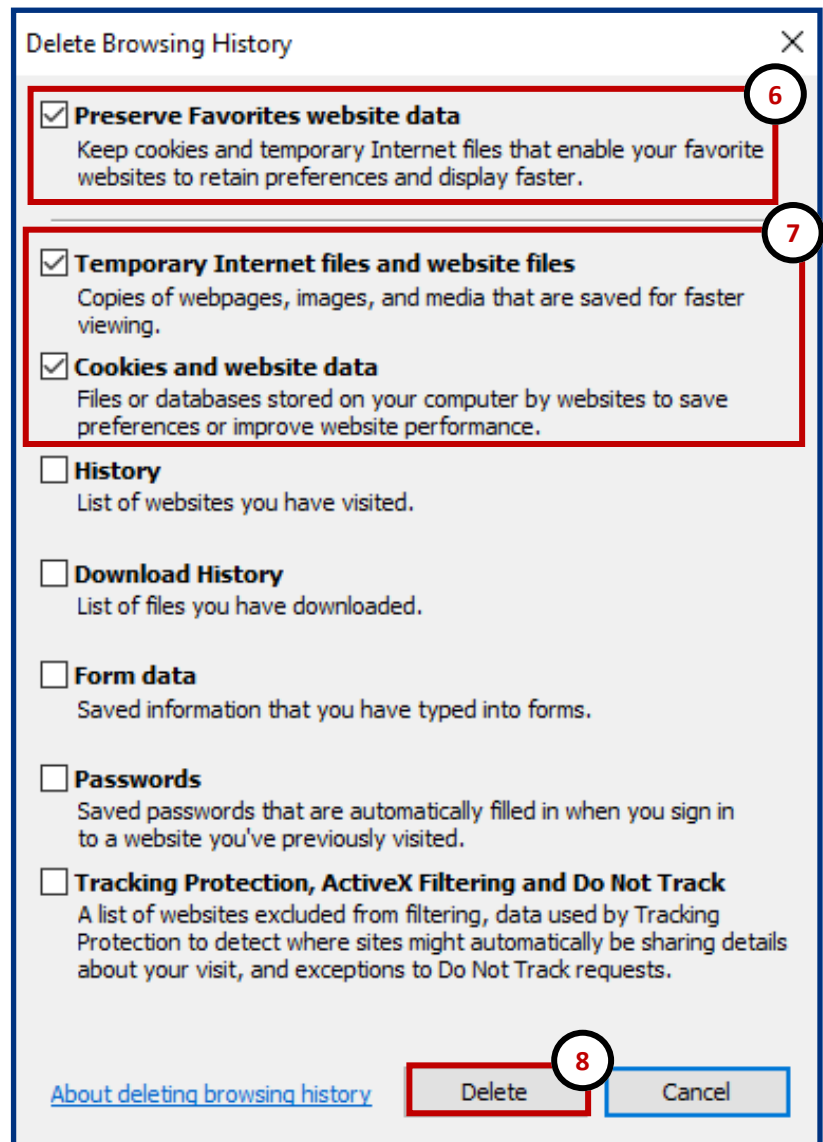

# Internet Explorer - Deleting Cache

6. Uncheck the **Preserve Favorites website data** box.

7. Check the following boxes:

- **Temporary Internet files and website files**
- **Cookies and website data**

8. Click on **Delete**.

9. Then select **Apply**.

10. Select **OK**.

The page will then clear all items, close the browser tabs/windows and reopen the browser to start a new session.
