Hourly Timesheets Overview

What’s new?

• UTEP hourly employees can now submit their timesheets in PeopleSoft.

• Time will be recorded via Punch Time Entries (Punch In/Out), this method records the student’s schedule and calculates the total time to be paid out.

• Timesheets submitted by hourly employees and by Timekeepers will route to the employee’s “Reports To” Manager for approval.

• In order to receive payment, the manager must approve the Timesheet by the payroll deadline.

Hourly Timesheets- Modifying Time

Things to know:

• Users have the ability to make changes to current and past transactions with a status of Saved, Needs Approval, Approved, or Denied.

• **Current transactions** are those that fall within the current pay period; as long as the changes are submitted & approved by the payroll deadline, the payment will be processed as expected.

• **Retro transactions** are those that fall outside of the current pay period. Approved changes will be processed in the next corresponding pay cycle.
  - There is a 90 day pay window which allows adjustments to past transactions.
  - Adjustments after 90 days of an event will need to be reported to payroll@utep.edu.
Punch Time Entries

What are Punch Time Entries:

• Punch time records start (In) and end (Out) times for hourly employees:

• This method will record the student’s actual work time in the system.

• Hourly employees are expected to record time in the system on a daily basis and save the changes by selecting the “Save” button.

• Submissions are required on a weekly basis. Please note that by selecting the “Submit” button you will trigger a notification to your Manager.

What’s new?

• Timekeepers should only submit timesheets for hourly employees if required by the department.

• Timesheets submissions will route to employee’s manager.

• Timekeepers are highly encouraged to submit Punch Time Entries, this method records the student’s schedule and calculates the total time to be paid out.

Things to Know:

• Timesheet can be modified by timekeeper; any changes submitted will also route to the employee’s manager for approval.

• Timekeepers will still be allowed to enter Elapsed (Quantity) Time; however, this will be disabled in the future and Punch Time Entries will be required.
